HUGE WASTE LAID TO SMALL

PAN-AMERICANS RALLY TO U. S. AS CONGRESS ENDS

See Europe's Hand in Foes' Last Stand.

By ARTHUR SEARS HENNING.

(Chicago Tribune Press Service.)
Copyright, 1923, By The Chicago Tribune.
HAVANA, Cuba, Feb. 19.—With the Pan-American conference still reverberating with the thunders of Charles Evans Hughes' speech last night, summing up the policies of the United States in the western hemisphere, the delegates were winding up their business today in preparation for the final session tomorrow.

Not only has the atmosphere of American relations been cleared by the Hughes speech and the accompanying vindication of United States policies at the hands of nearly all of the American republics, but tangible progress of vast importance has been accomplished by the sixth conference of the American nations.

What Conference Accomplished.
The outstanding accomplishments have been:

1. A provision for a special conference to draft a convention for the compulsory arbitration of disputes of a juridical nature among the American republics.
2. Agreement on a convention regulating international commercial aviation in the western hemisphere, with provision for barring airplanes from the neighborhood of the defenses of the Panama Canal Zone under terms of a prospective accord between the United States and Panama.
3. Agreement on a convention for reinforcing the Pan-American union on a permanent basis with the understanding that it shall exercise no political powers, but be confined to advising the mutual interest of the American republics.

4. Agreement on a convention modifying the rules of maritime neutrality in time of war and several other branches of international law.
5. Reference to a special conference of tropical experts for the vexed question of measures for the protection of trademarks.
There have also been numerous intangible accomplishments. Many delegates today were inclined to place first among the results of the conference the removal of misunderstanding among the American countries and the cultivation of a more sympathetic appreciation of each other's problems.
This came about through a frank laying of cards on the table in the committee of conference, to some extent, but to a much greater extent in the subcommittees which met behind closed doors.

Doff Masks of Diplomacy.
The subcommittee on the rights and duties of nations, which involved the intervention policy of the United States, furnishes a typical example. In this subcommittee, of which Mr. Hughes was chairman, the delegates held aside the masks of diplomacy and talked to each other like an aggregation of Dutch uncles.

Some of the Latin Americans explained that their attitude reflects a popular fear in their countries of intervention by the United States as an entering wedge to annexation by the United States. Mr. Hughes got down to brass tacks, explaining the vital importance to the United States of the maintenance of orderly governments in the neighborhood of the Panama canal and disclosing how intervention by the United States in numerous instances forestalled intervention by European powers.
As a result of these frank talks some of the Latin American delegations gained a more sympathetic understanding of the course of the United States. The effect was soon translated into action in the open committee meetings and in the conference itself opposition to the United States was dissipated.

Swing to Support of U. S.
Brazil and Peru stood forth as particularly friendly to the United States. Chile and Colombia cooperated with the United States in many important matters. There was a noticeable rapprochement between Mexico and the United States.

Not only the only countries which stood out and endeavored to fan the flames of hatred of the gringos were Argentina and Salvador. But the group of diehard enemies of the United States brought about their undoing when they touched off an explosion in plenary session last night. After one and another of the countries had turned against Argentina and Argentina on the inter-

5 HAIR TRIGGER DRYS DEFENDED BY GOVERNMENT

Accused of Shooting After Surrender.

By ARTHUR EVANS.
(Chicago Tribune Press Service.)
(Picture on back page.)

Miami, Fla., Feb. 19.—(Special.)—Five United States coast guardsmen will go to trial tomorrow charged with murder in the second degree, in the killing of Duncan W. [Red] Shannon on Feb. 4, 1923.

The case will be tried in federal court before Judge William Henry Hunt, of San Francisco. It was transferred from the state courts, whose judges are restricted from commenting on the evidence to the federal courts, where the bench has more latitude, at the instance of the federal government, which is defending the accused.

Interest manifested in the case in Miami is intense. The popular version of the killing is that Shannon was shot down after he had held up his hands in token of surrender.

The trial is regarded as the most important in a set of three cases against enforcement officers which hinge on the question of whether murder is legalized by the Volstead act.

Public feeling appears critical of the government for the two years of delay in putting the men on trial—the prosecution declares the dragging out has led to a great dispersion of witnesses and evaporation of evidence.

To reconstruct the story from the newspaper files of two years ago and from the versions current in Miami, Shannon was out in his boat in Biscayne bay. He was known throughout the town as "king of the rumrunners" and was a picturesque figure along the dock sides. A good natured, hale and hearty fellow, they paint him full of jovialities and humor, who counted among his customers some of the best people at the beach.

With Shannon were two companions, Fred Walther and Addison Nickerson. As he neared the yacht basin in front of the Flamingo hotel at Miami Beach, another boat started in pursuit.

Shots Imperil Persons Ashore.
Under the palms in the water front garden of the Flamingo hotel and on the yachts in the basin, scores of people looked on as the chase began. Shannon's boat dodged in and out of the yachts, and some of the onlookers said later it looked to them as if it were an attempt at hi-jacking. They said the pursuing boat carried nothing to denote it was a government craft and that it looked like any ordinary motor craft.

As the race neared the Flamingo, shooting started from the pursuing craft. Some of the bullets struck within a few feet of men on shore. Among them was Carl G. Fisher, developer of Miami Beach. He testified at the inquest that he was standing on the bulkhead of the hotel yacht basin with his wife and two children when the firing began. He said one shot struck within six feet of him.

Shot After Surrendering.
Shannon fell mortally wounded. He died in the hospital. Several guests of the Flamingo hotel, who witnessed the shooting, declared the coast guardsmen opened fire after Shannon had thrown up his hands abounding, "I surrender."

Others testified the coast guard boat was flying no insignia as required and that it was a converted liquor runner which the guards were using as a decoy.

The pursuing coast guard said Shannon during the chase kept throwing sacks of alleged liquor overboard and charged that Shannon's boat tried to ram the coast guard launch. Some of the witnesses on shore, however, said, at the inquest that they observed no attempt at ramming.

There was much talk from men who said that shots were fired by the guardsmen after the pursued had held their hands up in token of surrender.

Witnesses Disappear.
In two years, however, evidence has a habit of evaporating. The two years' delay have seen some witnesses die, and the case has become cold to the degree that Robert R. Taylor, county solicitor who is prosecuting the case, says that of all the scores of hotel guests and yachtsmen who saw the killing, he has been able to get track of only two or three witnesses.

There is criticism of the department and the state department of farms and markets.

HE'S BEEN EATING DYNAMITE

"Ape-Man's" Tooth Turns Out Wild Pig's

New York, Feb. 19.—(Special.)—The "million dollar" tooth, which was found in an ancient river bed in Nebraska in 1922 and put forward by scientists of the American Museum of Natural History as proof that an ape-man or forerunner of the human species lived millions of years ago in America, has been positively identified. It was learned today, as the tooth of an extinct wild pig.

This tooth has been the subject of warm controversy in this country and Europe for nearly six years. G. Elliot Smith and other distinguished British anthropologists accepted the tooth as proof that a sub-human, or high anthropoid type, had existed in the United States. It was mentioned to William Jennings Bryan frequently in the course of the Darwin theory controversy because the ancient molar had been found in his state.

Expert Retracts Identification.
In February, 1925, the American Museum of Natural History in its bulletin reaffirmed its position that the tooth was of a near-human type, declared that no tooth had ever been subjected to such a severe scientific cross-examination.

Further material has been dug up in the ancient Nebraska river bed, and a number of similar teeth found in association with the remains of an extinct pig. Prof. William K. Gregory of the American Museum, who was originally persuaded that the tooth was the first evidence that higher apes formerly existed in America, has retracted his identification and registered his opinion that the tooth belonged to an ancestor of the peccary.

How It Got Its Name.
The tooth became known as the "million dollar tooth" because of an accident which occurred while it was being X-rayed. The tooth was taken to a dental laboratory. Prof. Gregory handed it to a laboratory assistant and said:

"Now, be mighty careful. That tooth is worth a million dollars. The laboratory assistant began to tremble, the tooth slipped from his fingers, fell to the tiled floor and was shattered. The fragments were recovered, however, and the tooth was reconstructed.

**New York Farm Population
Increases 12,000 in 1922.**
Albany, N. Y., Feb. 19.—(Special.)—The farm population in New York state increased 12,000 during 1922, the first gain it has shown since 1921, according to a report made public today.

The report is based on a night of a farm census by the United States department of agriculture and the state department of farms and markets.

GEM SALESMAN REPORTS \$55,000 ROBBERY IN CAB

(Picture on back page.)

Milton Gertsenshlitz, jewel salesman from Brooklyn, N. Y., reported to the police early this morning that he had been robbed of unset diamonds worth \$55,000 at 11th street and South Michigan avenue late last night by three men who forced their way into his taxicab, ripped open his vest, and took a wallet containing the gems.

Gertsenshlitz and Miss Shirley Goldberg, 20 years old, of 2735 Birch boulevard, who was riding with him in the cab driven by Raymond Thompson, which they had engaged at the Congress hotel, were questioned at the detective bureau.

Gertsenshlitz said his firm was known as Gertsenshlitz Brothers but that he was actually working for a friend who took over the company after it had gone into bankruptcy a year ago. The jewels he carried were not insured.

"After forcing our car to the curb," Gertsenshlitz said, "one climbed into the cab while the others stood on the running boards. The one who got in seemed to know where he had the jewels. He went right for my vest and ripped it open to grab the wallet."

Thompson, the cab driver, told the police that before they arrived at the detective bureau Miss Goldberg said she thought she recognized one of the trio as a member of a west side gang. This she denied to detectives, but said she believed she could identify one of the men if she were to see him.

THE WEATHER

MONDAY, FEBRUARY 20, 1923.

Sunrise, 6:30; sunset, 5:29. Moon rises at 8:40 a. m. today. Venus is the morning and Jupiter the evening star.
Chicago and vicinity—Fair Monday and Tuesday; colder. Monday: fresh northwest winds. Tuesday: shifting to northeast. Wednesday: fair. Thursday: fair. Friday: fair. Saturday: fair. Sunday: fair.

YOUTH GOES ON TRIAL AS LOVE BOMBER TODAY

Charged with Dynamiting School and Fiancee.

(Chicago Tribune From Service.)
Oswego, Ill., Feb. 19.—(Special.)—The state is set in the old fashioned courthouse here for the trial of Hiram Reed, 24 years old, charged with bombing his sweetheart to avoid marriage and fatherhood. The characters in the drama to be presented tomorrow are former folk of central Illinois, but the story to be told is as grotesque as any tale of Russian fiction.

The scene to be pictured to the jury, selection of which is expected to occupy some days, will be the interior of the Pleasant Valley schoolhouse, near O'Leary, Ill., a one room frame structure similar to dozens which dot this county. On last Nov. 28 that room was wrecked by a terrific dynamite explosion. Miss Iola Bradford, pretty 23 year old school teacher and fiancee of the defendant, was saved from death only because she was stooping over the desk at the time of the explosion from the two doors passed over her head. But she was badly injured and her face was scarred for life.

But she refused.
Twenty-four hours later young Reed was relating with much gusto how he planted a stick and a half of dynamite in the stove with the knowledge that when the school teacher lighted the fire in the morning she would touch off the improvised bomb. Later he expressed confidence that he could marry Miss Bradford and escape prosecution for the crime. But she declared her engagement to him was broken. Then he reconsidered this confession and re-planted it.

Miss Bradford will be the chief witness against Reed. Her face, pitted and marked by the scars of metal shrapnel, which penetrated the skin, will be state evidence of the explosion. Miss Bradford is the daughter of a retired minister of Chillicothe, Ill. Reed is the son of a wealthy farmer of Mendota, Ill. He is a tall, well built youth, with regular features and black bushy hair. His conversation betrays an intense egotism, especially in his relations with women. He is interested in music and plays the violin.

Awaits Birth of Baby.
Miss Bradford is soon to become a mother. She was to have been married to Reed in December, but the explosion occurred three days before the wedding date. In his confession Reed said his motive was to avoid the marriage and intimidate it would have been successful in both his fiancee and her unborn child if she had been killed.

Forty-seven witnesses are ready to testify for the state. These include school authorities, relatives of Miss Bradford, and officials who heard Reed make his confession. The defense, it is said, will be an attempt to keep the confession from the jury and proof of an alibi for the defendant.

There is another interesting angle to the courtroom battle. State's Attorney

SCHOOL BOMBER ON TRIAL TODAY

HIRAM REED.
(Tribune Photo.)

IOLA BRADFORD.

Russell O. Hanson, a candidate for reelection, has for an opponent in the April primaries. Attorney Thomas O'Meara, Reed's counsel.

The first charge Reed will be tried upon is that of bombing a schoolhouse. Conviction carries a sentence of from one to twenty years. There are three other charges and the youth will be forced to stand trial upon them all.

Dr. Rongetti Goes on Trial Today as Slayer of Two
Dr. Amante Rongetti, former head of the Ashland Boulevard hospital, will go on trial today charged with murder. The physician is accused of performing an illegal operation on Miss Loretta Enders that resulted in the deaths of both the girl and her baby. The infant's body was later burned in a furnace, it is charged.

Wife Goes Back to Mother; He Sends Her Gift of Bricks
The decision of Clarence Zurewaki's wife, Helen, to go back to her mother made him angry. Last night he went over to his mother-in-law's home at 3187 Lyndale street and threw bricks through her windows. Helen called the police and then signed a complaint charging disorderly conduct and malicious mischief against him. Clarence lives at 1257 Noble street.

HELD FOR INSULTING GIRL.
John Johnston, 34, of 1708 Maplewood avenue, was arrested yesterday when passing detectives said they heard him insult a girl. He is held at the Cook County Jail, 100 North Campbell avenue, as he passed her on the street.

FLEEING ROBBER WRECKS 2 AUTOS; SHOT IN PURSUIT

Smashes Stolen \$5,000 Car in 5 Mile Chase.

Swinging a \$5,000 automobile from 48th street into Drexel boulevard at a speed of 60 miles an hour last night, a colored stickup man struck another automobile, lost control of his own, and wrecked it against a pillar of the fence surrounding the mansion of the Morris family, noted Chicago packers.

Close behind the fugitive were the members of a police squad headed by Sgt. Frank Reynolds of the detective bureau. As the robber fled from the wrecked automobile there was a volley from the police car and he fell to the ground. Four bullets had struck him in the body and at the Bridgeview hospital it was said he could not live.

Only one of those in the automobile that was struck in the chase was injured. Mrs. Helen Sulzberger, 1615 Hyde Park boulevard, was shaken up and bruised. The others were only slightly hurt.

The wounded man was questioned at the hospital by Sgt. Reynolds. He said that he was Harry Davis, 36, of 440 East 46th street. He and a companion, he admitted, had taken the automobile, which belonged to Benjamin

30 RADIO MICROPHONES REMOVED AS UNION ENFORCES NEW RULE

Thirty radio microphones, in as many places of public amusement in Chicago, were not in use yesterday, it was announced by James Petrillo, president of the Chicago Federation of Musicians, as a result of the union's ultimatum that all broadcasting stations must employ a full complement of musicians.

According to the ultimatum, issued by the musicians' federation five weeks ago, fixed numbers of musicians must be employed in all broadcasting stations using remote control. At a meeting on Saturday Petrillo instructed orchestra leaders to see that all microphones connected with such stations that had not met the demands of the union be removed.

Slept, 5101 Sheridan road, from the latter's chauffeur and a girl on Saturday and had used it for two robberies. As the robber fled from the wrecked automobile there was a volley from the police car and he fell to the ground. Four bullets had struck him in the body and at the Bridgeview hospital it was said he could not live.

Petrillo admitted that he had been involved in a total of twenty-five robberies in the last few months. Since November, Sgt. Reynolds and his men, Policemen Orin Rose, Arnold Bloom, Frank J. Leonard, and John McNamara, have shot and killed seven burglars and robbers, Davis being the eighth one shot.

Praises Turkish Court in Trial of U. S. Teachers

CONSTANTINOPLE, Feb. 19.—(AP)—Mrs. Edith Sanderson and Miss Jennie Jones, two of the three American teachers in the American school at Hama who were under charges of disseminating religious information illegally, have come here to visit friends pending the resumption of their trial at Bursa on March 1. Edward Perry, a representative of the American board of foreign missions, who was a spectator at the preliminary arraignment on Feb. 12, said: "We were greatly impressed by the orderliness and dignity of the court."

SUMMERALL TALK TO LINK PRESENT TO WASHINGTON

D. A. R. to Hear Army Chief of Staff.

The United States of America, a world power, will be linked on Wednesday to the struggling United States that Gen. George Washington's army created out of thirteen British colonies. Maj. Gen. Charles P. Summerall will speak before the Chicago chapter of the Daughters of American Revolution at a luncheon in the ballroom of the Stevens hotel.

Officers of the Sixth corps area will meet Gen. Summerall, who is head of the army general staff, at the train and escort him to the hotel. So will be joined the memories of the world war days, when America had about 4,000,000 men under arms, to the days when the population of the United States was around 1,000,000.

Many other organizations will celebrate in honor of Washington's birthday, some before Feb. 22.

Mayor Thompson to Talk.
Mayor William Hale Thompson will be guest of honor at the annual Washington's birthday dinner of the United Irish Societies tonight in the Canteen room of the Hotel Morrison. State Attorney Robert E. Crowe will be toastmaster.

Washington and the other members of the Philadelphia convention of 1787, that drafted the constitution, will be depicted in tableaux Tuesday evening in the grand ballroom of the Hotel Sherman under the auspices of the American Brotherhood, U. S. A. There also will be public initiation of 1,000 candidates for membership to the organization, which is working for a modification of the Volstead act. Dancing will follow the ceremonies.

Jewish View of Washington.

Washington and Lincoln as judged by the American Jew was the subject of a lecture yesterday morning by Dr. Solomon E. Freehof at K. A. M.

temple, 56th street and Drexel boulevard.

"Washington's memory gains the reverence of the American Jew through his accomplishment of giving to them the first complete rights as citizens since the destruction of Jerusalem; Lincoln's memory, through his personality," Dr. Freehof said.

Endurance Flyer Forced Down After 27 Hours in Air

Indio, Cal., Feb. 19.—(AP)—The trimotored monoplane Albatross was forced down near Salton, Cal., about 30 miles from here at 1:30 a. m. today after flying more than 27 hours in an attempt to break the world's endurance flight record of more than 52 hours.

GANGSTER SLAIN WHEN HE PULLS GUN ON RAIDERS

Policeman Seizes His Weapon and Fires.

A man believed to have been a fugitive gunman from New Orleans, La., was shot and killed by police last night during a raid on an alleged moonshine den at 1150 West Madison street. The victim, who had given the name of William Pappas, had in his possession a bank book bearing the name of Joe Scavuzza.

Lieut. Philip Carroll, accompanied by Detective Sergeants Michael Shannon, George Taping, Walter Bailey, and John Ghee, had gone to the Madison street address in search of evidence bearing on the murder of John Korman. Korman was shot and killed on Saturday night in another resort across the street at 1151 Madison street.

Trick to Bar Entrance.
Pappas, or Scavuzza, attempted to prevent the entrance of the detectives. They brushed past him, however, and in a few moments had rounded up and loaded in a patrol wagon five men and a woman they found in the place.

"As we were leaving Pappas leaped into the hallway and pressed a revolver against my chest," said Lieut. Carroll. "He had the 'drop,' and so Sgt. Taping and I could only back slowly down the stairway to the street."

Scavuzza's Gun, Fires.
At the doorway, by a quick movement Carroll seized the weapon of Pappas, at the same time drawing his own revolver and firing three times. Pappas sank to the floor, shot through the abdomen. He died shortly afterward at the county hospital.

In addition to the five men and the woman taken into custody in the place, the police reported they had found 600 bottles of beer and 200 bottles of moonshine. The woman gave the name of Marie Mulart.

Falls to Death Under Train as It Starts for His Home

About to board a train for New York in the Dearborn Street station last night, a man believed to be Andrew Moss, 35, of Pittsburgh, threw himself or fell accidentally between two cars as the train started and was crushed to death. The man had taken his bag into the car and was standing on the platform when he fell. The body was taken to an undertaker at 422 South Clark street.

KILLED BY HIS OWN FIST.
Joseph Jacklin, 31, of 1324 Wellington avenue, was shot and killed yesterday afternoon when a pistol he was displaying to friends in his home was accidentally discharged.

GF Allsteel Files

Letters, invoices, documents, all business papers that are worth keeping at all, deserve proper filing equipment. CHEVROLET

GEO. W. DURST CHEVROLET CO.
Chicago
January 14, 1928.

The Tribune Company,
435 N. Michigan Ave.,
Chicago, Illinois.

Gentlemen:
On October 25th Mr. Albro took charge of our used car department, and at his suggestion we signed a contract with your company and increased our newspaper advertising program.

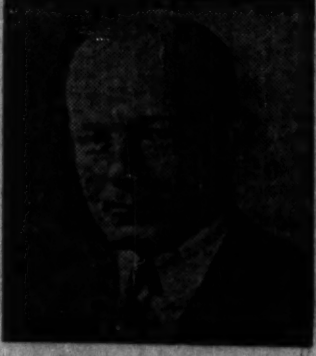

Previous to October 25th we had used in three months' time some three hundred lines in your classified section with fair results. From October 26th to January 1st we increased this amount to 1,662 lines and increased our sales some 300%.

Upon these conclusive facts we are basing our future program, allotting The Tribune a 1/4 ratio of our classified advertising budget.

Thanking you for your sincere co-operation,

Respectfully yours,

GEO. W. DURST CHEVROLET CO.

George W. Durst

Chevrolet Increased Their Used Car Sales 300% with Tribune Want Ads.

LAST Fall the George W. Durst Chevrolet Company, one of Chicago's outstanding dealers, decided that the progress of their business demanded a radical change in their used car marketing methods. For the expense of selling overbalanced the profits they made through their deals.

Their first step was to engage the services of Mr. Albro, whose long experience in the used car sales field fitted him for the position of manager of the department. Basing his decision on his past experience, Mr. Albro did a wise thing. He increased his used car advertising in The Tribune by practically 500 lines a month.

Immediately results began to show. Used car sales surged over all previous high water marks . . . increasing 300 per cent.

Chevrolet's success again proves that the way to used car sales success lies through The Tribune Want Ad Section. For their testimony added to the experiences of hundreds of other dealers and owners is another conclusive proof that The Tribune is without equal in this field. To take advantage of its great service call . . .

WIDOW HITS SNAG IN HER FIGHT FOR \$40,000 ESTATE

Has Difficulty Proving She's Beneficiary.

Sam Sward, 68, was a bachelor. He lived alone at 3206 Commercial avenue. All his relatives remained in Sweden when Sam came to Chicago many years ago. Sam was reputed to be worth \$40,000 to \$50,000, and when he died last Dec. 4 there at once opened up three separate and distinct estates, each purporting to be his last will and testament.

One will left Sam Sward's property in his brothers and sisters in Sweden. A second left it all to Mrs. Cecelia Sward, 55, a comely widow, of 2235 Commercial avenue, whom Mr. Sward frequently visited. The third purporting will left everything to another person, known as Mrs. Anna Nielson, 45 years old, who filed it in the Probate court, stating she had been secretly married to Mr. Sward and consequently had twice been widowed.

Ordered to Prove Wedding.
The Widow Pfandler and the Widow Nielson at once went into a contest over the estate before Probate Judge Hermer. Attorney W. T. Dickson represents the Widow Pfandler, lawyer James Poynton the other. Mrs. Nielson at a hearing in Probate court last Tuesday was ordered to obtain a certified copy of her marriage certificate to prove she had married Mr. Sward.

Last night a message came from Jackson, Ky., a small town in Breathitt county, famed for its feuds, stating that Mrs. Nielson and Leroy Nelson, 31, were under arrest and in jail there on a charge of confederating to obtain a false marriage certificate through which they hoped to claim the estate of Mr. Sward.

Wife After Death.
According to the authorities in Kentucky, Mrs. Nielson was in Jackson on Dec. 25, last, 25 days after Mr. Sward's death, and on that day obtained a license to marry the deceased. Further, it is stated that some one who posed as the Mr. Sward, then in his grave, married the Widow Nielson that same day. And then the couple let it be known they were going on a honeymoon back to Chicago.

Young Nielson arrived in Jackson, Ky., on Feb. 16, two days after the Widow Nielson had been ordered in court to obtain the certified copy of the marriage certificate. He obtained a copy of the certificate issued on Dec. 25, 1927, and immediately wired the widow waiting in Chicago that for \$10 he could get it dated back to Dec. 23, 1926, it is charged.

In young Nielson's room the Jackson authorities found some fuse, some TNT, a bottle of nitroglycerin, and a bottle of ink remover. They believe he intended to blast the vault in the county recorder's office and alter the original records. The widow Nielson went to Jackson late yesterday to "get Leroy out of jail." Instead of getting Leroy out she joined him on the inside.

POLICE RESCUE VICAR ATTACKED BY DISSENTERS

Hissed from Church, 7,000 Close on Him.

DARWEN, England, Feb. 19.—[U.P.]—English Protestant feelings here rose to a high pitch today in two unprecedented anti-Catholic demonstrations which almost reached the proportions of violence.

At the morning and evening services in St. Cuthbert's church, Protestants, by their hissing, coughing and singing, prevented the vicar, the Rev. E. B. Laurie, and the curate, N. Crawshaw, from preaching their sermons.

After both services the vicar and curate were endangered by a mob of between 7,000 and 8,000 people, who gathered around them. Two persons were injured in the morning demonstrations outside the church, but the Rev. Mr. Laurie was rescued by police.

When the Rev. Mr. Crawshaw was unable to deliver the evening sermon the Rev. Mr. Laurie closed the service and both departed for their homes, protected by police. Thousands hissed the two clergymen on their way. Ugly street scenes were enacted following their departure.

The protests began at the morning service, when the congregation, numbering 1,400 persons, objected to the sung Eucharist in the communion service.

Churchmen Hiss at Vicar.
Then the Rev. Mr. Laurie entered the pulpit. The congregation, almost as though the incident were prearranged, rose and began to sing hymns. Then they hissed the vicar and coughed disconcertingly. They continued singing "Onward, Christian Soldiers" and "God Save the King." This disorder went on for two hours. Then the vicar left the pulpit, departing from the church. The congregation had sung thirty-eight hymns. A crowd of more than 7,000 persons

POLICE IN PURSUIT OF STOLEN BEER THRILL BIG CROWD

The speeding of a police squad car, with shrieking siren, in the neighborhood of 46th street and Cottage Grove avenue yesterday was not due to a shooting or holdup, as many persons drawn by the noise suspected.

The police were on the trail of a barrel of beer. It finally was recovered from the street where it had been thrown from a taxi cab being chased by the squad. At the sight of the barrel the police devoted their entire attention to it, and abandoned the pursuit of the taxi.

James McDonald, a saloonkeeper at 4515 Cottage Grove avenue, told police that "Plucks" Flannigan, 35, owner of a neighboring resort, had paid him a visit. "I'm all out of beer," Flannigan is reported to have said. "Give me a barrel."

When his demand was refused, McDonald said, Flannigan drew a revolver, fired three times just for the effect, and took the beer, anyway. He loaded it into the cab and started away when police were called.

followed the Rev. Mr. Laurie after he had left the church. He was attacked and pushed into the bushes. Then police came to the rescue and escorted him home. Other officers placated the crowd.

Several Outbreaks in Church.
The demonstrations were the most significant since the beginning of the Church of England controversy several months ago. They were the culmination of Protestant opposition to the vicar's alleged Anglo-Catholic practices. Similar incidents of lesser proportions, however, have occurred in this church on several successive Sundays.

For the last few months, beginning with the incident in St. Paul's cathedral when Bishop Barnes of Birmingham was interrupted as he was about to begin a sermon on evolution, there have been demonstrations in English churches.

The archbishop of Canterbury and the church assembly last year revised the Church of England prayer book, making it more ritualistic. Those in the church whose motto is "save England for Protestantism" saw in these changes a step toward Catholicism.

POLICEMAN DIES OF AUTO INJURIES; 3 ADDED TO TOLL

Three deaths in Chicago yesterday as a result of automobile accidents raised the motor toll in Cook county to 125 since Jan. 1.

Motorcycle Policeman Peter Peterson, 31 years old, 4816 Cortland street, who was injured in a collision with an automobile at Chicago and La Vergne avenues, died at St. Anne's hospital. The car was driven by Henry A. Smith, 1034 North Lawler avenue. He was questioned and released.

James Elias, 55, of 230 South Morgan street, died in county hospital of injuries suffered on Friday when he was struck by a truck in front of 330 West Harrison street. The driver, who failed to stop, is sought by the police.

Isaac Blatt, 32, of 821 Independence boulevard, died at Mount Sinai hospital. He was struck on Feb. 13 by an automobile driven by Harry Skenar, 1640 Taylor street.

John T. Bodde Jr., 19, of 325 Fullerton parkway, was injured when the automobile in which he was riding crashed into a post on Lake Shore drive near Chicago avenue early yesterday.

Takes Roomer to Ward Off Poverty; Steals Her Cash.
In an effort to supplement her rapidly shrinking funds, Mrs. Mary Finster, 46, of 23 West Superior street, hung out a "Rooms for Rent" sign. Yesterday a man said he would take one of her rooms. She was elated and offered him lunch. While she was putting on her coat and that before going to the store for rolls, the man seized her purse, containing \$15, practically all she had, and ran out. Chicago avenue police, who found her to be without coat or food, contributed \$5 and referred her case to a charity.

JAILED ON GIRL'S CHARGE.
Frank Dena, 26, of 719 South Loomis street, was locked up in the Maxwell street station last yesterday on charges of having three 14 year old girls who were with him in an automobile when he was arrested.

Former Northwest 'Mounty' Ordained Episcopal Priest

(Picture on back page.)
Mansel B. Green, former member of the Royal Northwest Mounted police, yesterday was ordained a minister of the Episcopal church by Bishop Sheldon M. Griswold at St. Paul's-by-the-Lake church in Rogers Park yesterday.

The Rev. Mr. Green said his first inspiration for the ministry came to him years ago when, as a mounted policeman, he was chasing horse thieves through the Canadian wilds.

Pick Moncada as Liberal Candidate in Nicaragua.
MANAGUA, Nicaragua, Feb. 19.—(AP)—Gen. Jose Maria Moncada and Dr. Antonio Medrano were unanimously nominated for president and vice president, respectively, by the national convention of the Liberal party at Leon today.

Man Dies at 125; Widow 119; Youngster Daughter 80
LONDON, Feb. 19.—A Jew named Leib Field, aged 125, died today at Lisko, Poland, according to the Daily Express' Warsaw correspondent. He had enjoyed 100 years of happy married life. A widow, aged 119, and six children survive. The youngest daughter is 80 years old.

Cafe Shooting and Panic
Remain a Police Mystery
Town Hall police investigating a shooting early yesterday in the Lido club cafe, at 4749 Broadway, in which a waiter was probably fatally wounded, were unable to find any one willing to tell who fired the shots that caused a panic among 150 patrons. The wounded waiter is Nicholas Brown, 31, of 1910 West Huron street.

U.S. AND ENGLAND DIFFER-BUT WHAT OF IT? SHE ASKS

Doesn't Mean a Thing,
Miss Royden Avers.

Americans and Englishmen get on each other's nerves, but it doesn't mean anything. That's the opinion of Miss Maude Royden, English preacher, who lectured last evening in the People's church at 441 Lawrence avenue.

"We can be friends," Miss Royden declared. "Our differences are temperamental rather than fundamental and when we realize this the difficulties will be taken away. It's regrettable, but true, that it's easier for an American to understand a Scot or an Irishman than to understand an Englishman."

Used to Ruling Seas.
She added that the English were so used to dominating the seas that they, on their part, couldn't understand why any one should presume to rival the British navy. Another point she made was that the British rather resented American collection of war debts because England had lost ten times as many men on world war battlefields. Her conclusion was, however, that a better feeling in regard to the matter at least was growing up in England.

Earlier in the day Miss Royden had lectured at Orchestra hall on the relationship between religion and science, which she declared are allies and not enemies as "there is no conflict between them."

Triumphs by Understanding.
"Science," she said, "has won its triumphs by understanding, not by neglect."

Scientists have patiently studied and worked and experimented through years and years, to understand the nature of things—not to defeat their ends. Because of that work and effort, we can harness the lightning. We do not try to stem Niagara—we harness it and make it produce power, because we understand it.

"Think how much we might have learned about living, if only we had devoted as much time and effort to learning the laws of God, and in understanding them. He is most easily understood in the light of modern science, the highest achievement of our age. You can no more disobey the law of God than you can disobey the law of gravity. But you can and you do disregard it. And inevitably, it is not God that suffers, but man."

Confidence in Youth.
"It is no harder to be a Christian today than it was to be a Christian in the years immediately after Christ. It is only more complicated. I believe, however, that every generation has light enough to solve its own problems. If only it has the courage to use it."

Miss Jane Addams, who introduced Miss Royden, paid tribute to the British woman's intellect and eloquence and Miss Royden, declaring that she was stating a truth, not paying a compliment, asserted that "we in Great Britain regard Miss Addams as the greatest woman in the world."

Strike Breakers Beaten by Striking Miners' Wives

BRUX, Czechoslovakia, Feb. 19.—(AP)—Strike breakers in this coal mine region today were beaten by battalions of angry women armed with horse-whips and sticks for having replaced the women's husbands when the latter struck for more pay and better conditions. The strike housewives, after beating several strike breakers into insensibility, marched triumphantly toward the mines and attempted to prevent pumps from relieving floods in the mines. The women finally were dispersed by gendarmes.

WOMAN KILLED BY POISON.
Mrs. Daley Schuchman, 40 years old, 5435 Dresden boulevard, died in the Michael Reese hospital last night as a result of poisoning by bichloride of mercury, which she took a week ago by mistake.

UNCLE SAM AGAIN DEFENDING HIS DRY LAW GUNMEN

(Continued from first page.)

of justice which, in defending law-trigger enforcement agents, is employing the devices which for years have been deplored as being the most frequent cause of miscarriages of justice delays.

The five guardsmen who go to trial charged with second degree murder are Ensign Phillip E. Shaw, Boatswain Paul R. Austin, and Guardsmen Odis Mockina, B. C. Smith, and Edward McAuld. They will be defended

by Norman J. Morrison, assistant to the attorney general at Washington. No for several years has specialized in the defense of enforcement officers. The special panel from upstairs has been ordered to report in the morning. From this panel were selected the twelve men who acquitted three coast guardsmen charged with murder in the Jones case, a week ago.

Dry Counties Supply Jury.
Three counties, Pade, Howard and Monroe, were kept off this panel, which contains no one from the stretch of southern Florida reaching from Key West to Miami and from Miami to Fort Lauderdale. This is the cause of much criticism here, some leading citizens arguing that if this practice becomes general the effect in some cases might conceivably be to place run killing cases before juries from districts of fanatical dry tendencies, with whom the matter of enforcement might outweigh all else, even murder.

FOUND DEAD IN BED.
William Stewart, 57, a white man, was found dead at least 24 hours yesterday in bed at his home, 173 Western avenue, Illinois.

A Vital Message to Parents and Young Men

A well known loop firm with a record of 59 years success in business due to expansion, will accept applications for Junior Executives from young men between the years of 21 and 25, now living at home, and who are eager to advance themselves if given an opportunity. Write in detail complete business experience and qualifications. Arrangements will be made later to interview parents or applicants, or both.

ADDRESS S H 125, TRIBUNE

ROBBERY CHARGE IS FILED AGAINST SHOOTING VICTIM

Blanche Wilson, owner of the tearoom at 2553 South Michigan avenue where two men were slain recently by Police Sergeant Thomas Cooper, yesterday signed a complaint charging Jack Gold, 34, of 2919 West Roosevelt road, with attempted robbery. Gold, who was wounded by the policeman, is recovering at the Bridgwell hospital. Similar complaints against Gold were signed by Fred Kerna, 411 East 61st street, a patron of the tearoom; Vera Allen, a waitress, and by Sgt. Cooper. Relatives of the slain men deny that the shooting occurred in a holdup.

NEED TO ENTER APRIL 3 PRIMARY IN WISCONSIN

First Move in Campaign for Missouri.

St. Louis, Mo., Feb. 18.—(AP)—An announcement that Senator James A. Reed of Missouri will participate in the Wisconsin primary of April 3 for the 24 Democratic presidential delegates of that state was made here today, as the senator departed for the southwest on an extensive speaking tour.

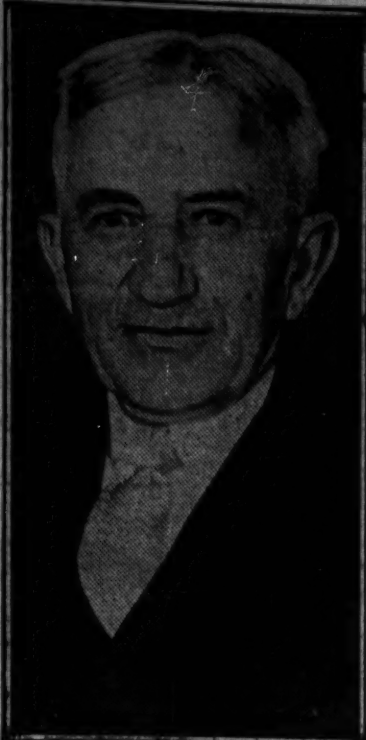

Reed's entry of the Missouri in the Democratic presidential race was authorized by Lee Meriwether, manager of the Reed headquarters in Washington, who accompanied the senator here from the capital, and he announced the step was taken with the consent of Mr. Reed.

It is the first move, he said, in a nationwide campaign planned by friends of the senator and for which they hold high hopes. Candidates may file in the Wisconsin primary through voters' petitions and without formal declarations by themselves, and circulation of the petitions has been authorized in that state. The Missouri is said to be planning a stop in Wisconsin on returning from the Pacific coast in March.

Mr. Meriwether revealed today that the senator's candidacy also may be announced in North Dakota and Michigan, where filing dates for the primary close on March 1. In each instance entry may be made by voters' petitions. The North Dakota primary is on March 20.

MAIN BY JEALOUS WIFE.

OPPOSES AL

GOV. HENRY H. HORTON.
(Tribune Photo.)

Al Smith will experience difficulty getting the backing of the Tennessee delegation for the presidency at the Democratic convention, according to Gov. Henry H. Horton of Tennessee, who arrived in Chicago yesterday. Cordell Hull of Carthage, Tenn., a veteran of 20 years in the house of representatives, has a better chance, said the governor, who stated that Tennessee's objection to Smith was based on his wet platform rather than his religion.

Gov. Horton said his state is now spending 36 per cent of its gross income on education. Illiteracy is fast being wiped out by the many schools being erected in the mountain districts, he said.

TEST FILTRATION TO GIVE SOUTH SIDE PURE WATER

Experimental Plant to Be in Operation Soon.

BY OSCAR HEWITT.
(Picture on back page.)

A new experimental filtering plant, costing about \$150,000, will be placed in operation by Commissioner of Public Works Wolfe within the next month. The plant housed temporarily at 69th street and Oglesby avenue, adjacent to the 69th street pumping station.

This is the first step, according to Commissioner Wolfe of the administration's plan to supply the south side with palatable drinking water, now frequently muddy and tasting of chemicals. The neglect of many years has resulted in large financial injury to hotels and apartments of the south side, residents say.

Project to Cost Millions.
The experimental station is regarded as a preliminary step in the filtering of all of the south side drinking water and eventually of all Chicago. The cost of the entire project, roughly estimated at between \$30,000,000 and \$50,000,000, is to be one of the monumental works which the mayor intends to start during his administration, according to Commissioner Wolfe. It is to be one of the proofs, the commissioner said, that the mayor is entitled to the title "Bill, the Builder."

The plant is in a frame building of Spanish mission type covered with stucco, so that it will not appear out of place from the South Shore drive, from which it is visible. It includes two standard filter basins built of concrete, each having a capacity of 250,000 gallons per day; and a settling basin in several sections, supplying a varied range of time for settling tests before filtering.

There are also three separate mixing basins for mingling the chemicals with the raw water. Set over these, are individual chemical tanks for the preparation of solutions, which are chiefly alum and iron. All these appliances are in a building 125 feet wide, 500 feet long and of an average height of 35 feet.

Will Supply Water Free.
Soon after the plant is placed in operation, Commissioner Wolfe will make arrangements to supply filtered water gratis to any south side residents who go after it. Any south side applicant will have his bottle or jug sterilized and filled with filtered water.

The station will have all necessary apparatus for any desired test or investigation. It will permit other methods of purification to be studied along with filtration.

Among the courses of study, which will be made are: The physical and bacteriological characteristics of the water supply, the effect of the seasonal changes in the character of the raw water in relation to several purification processes, the efficiency of slow and rapid filtration, the shortest periods of sedimentation, methods of mixing chemicals, and other subjects.

The experiment is deemed prudent because of the enormous cost of purification of water. To illustrate: Under standard practice at present, one acre of sand filter is required for each 125,000,000 gallons of water filtered daily. Detroit has been attempting to develop a process by which one acre of sand will serve 200,000,000 gallons of water daily.

New Land to Be Built.
Chicago is now pumping about 300,000,000 gallons daily, according to official estimates. The present tentative recommendation of the city's engineers is for filtration plants in the lake at four spots. That means the building of land in four such locations. In addition to each acre of actual filter, there ordinarily are two acres of requisite supplemental works. If the city must have one acre of sand for each 125,000,000 gallons of water daily, more than 13 acres must be filled in; but if a system is serviceable of one acre for each 200,000,000 gallons of water, twelve acres will suffice for the present.

**Optometrists Will Open
Convention Here Today.**
Among the features of the twentieth annual convention of the Illinois State Society of Optometrists, opening this morning at the La Salle hotel, will be a special free clinic for any one under 35 years of age who has poor vision in one eye while its mate is normal or nearly so. Hours for the clinic will be from 9 to 11:30 a. m. Tuesday.

Grain Crisis.

BY DONALD DAY.

RIGA, Latvia, Feb. 19.—Publishing a long list describing the character of the goods which the government trading organization recently sent to village stores, the Moscow Journal Molot contends that the arrest and punishment of the chairman of the village soviet for their failure to collect grain from the peasants is a mistake. Instead the Gay-payou (political police) should arrest the leaders of the co-operative and other state trading enterprises, the paper says.

The grain collecting campaign will continue to be a failure until the peasants are supplied with the articles they demand, Molot says. It reports that village stores in the Ukraine grain districts recently received shipments of neckties, suspenders, garters, night-shirts, and pajamas, most of the articles being made of silk, from the Kharovsk silk trust.

Get Alarm Clocks. Lack Food.
The village stores in Kuban, which is another fertile grain region, report that they have plenty of alarm clocks, electric irons, radio parts, but they have no sugar, tea, herring, calico, nor woven goods. Caucasian stores instead of receiving the simple necessities they ordered, received umbrellas, soft felt hats, oxfords, satin pumps, combs and other goods which the peasants have not seen before.

The Molot says the directors are fools who should be classed as criminals, since their business activities consist of discrediting the government by attempting to sell the peasants luxuries which cannot be sold in the cities because of the poverty of the workers.

Other Moscow papers are filled with similar reports. The peasants' boycott of the government and grain buyers in the biggest story. Whole pages of the Izvestia, Pravda, and other papers are filled with accounts discussing the fading hope of fulfilling the grain export program. The Baltic states, which a few months ago were offered unlimited quantities of grain by the bolsheviks, are now placing orders with America. The soviet also are unable

GRANARY

The map shows the grain growing district of Russia, where peasants are hoarding their grain because they cannot buy goods they need from soviet stores.

to fulfill the grain contracts signed with English and German concerns.

Stores Limit Sales.

MOSCOW, Feb. 19.—(AP)—The shortage of flour, butter, peas, soap, and textiles has reached such a serious stage here that the authorities have decided to take vigorous measures to remedy the situation.

While these commodities may be purchased at exorbitant prices in private markets, they are scarce in many of the government co-operative stores. Some government stores have been forced to limit sales owing to the lack of supplies. Purchasers have been standing in long queues for hours waiting an opportunity to make their limited purchases of necessities. Sometimes they reached the counter only to be told that all of the goods of the kind they desired had been sold.

Several instances have been reported where the co-operative ceased selling altogether to the public, although continuing to supply small rations to their members.

Due to Grain Shortage.

This situation, recalling the days of a famine, has been attributed primarily to the grain shortage. The resignation of Alexander Petrovitch Smirnov, commissar for agriculture, because of failure to manage the grain storing campaign, which fell 2,000,000 tons short of the previous year despite the increased harvest, was reported yesterday. A slight improvement in the grain situation has been attributed partly to the recent visit of Joseph Stalin to Siberia, where he issued new instructions to the officials in the hope of persuading the peasant farmers to send their grain to the markets.

PAN-AMERICANS RALLY TO U. S. AS CONGRESS ENDS

Hand of Europe Seen in
Last Stand of Foes.

(Continued from first page.)

vention question and Mr. Hughes had delivered that withering blast, the plotters against the United States had been impressively repudiated and the reputation advertised to the world. This incident did more than anything else to put a crimp into the movement engineered by enemies of the United States to write into international law a flat prohibition of intervention under any circumstances. The question is now postponed for five years under circumstances that will not encourage its revival in the form it took at this conference.

Guerrero Fades from Picture.

Gustavo Guerrero, the little foreign minister of Salvador, finest of the Americas, faded out of the picture after the verbal trouncing he received from Mr. Hughes. He did not attend the dinner given by the mayor of Havana after the primary session last night which was attended by all the delegates. He was not in evidence today and his associates said he had departed for home, thereby avoiding the final session tomorrow.

Some of the Latin Americans accuse Dr. Guerrero of having played a European game at this conference. They are suspicious that he was influenced to take the attitude he did by his close relations with several European countries, particularly France. Dr. Guerrero is not only foreign minister of Salvador but minister to Italy, Spain and France and he resides most of the time at Nice, where he looks after the

affairs of a personally conducted tour organization in France. Incidentally, there was a secret agent of the French foreign office in the guise of a newspaper correspondent in attendance on the conference from the day it met.

Mr. Hughes was showered today with congratulations on his speech. Many of the messages came by cable from the United States.

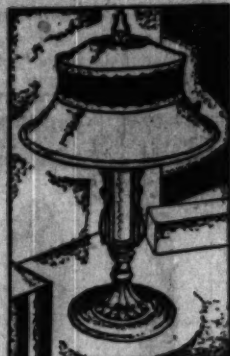

"I heartily commend in principle everything that Mr. Hughes said, and think it was a most opportune time for him to say it," was the significant statement of Former Senator Underwood of Alabama, who is the ranking Democratic member of the delegation.

**Florida Shivering, but
Fruit Crop Is Little Hurt**
Jacksonville, Fla., Feb. 19.—(AP)—Florida joined the rest of the southland today in shivering as freezing temperatures swept down on the state last night on the wings of a high wind, but, from available reports, truck and fruit crops suffered minor if any damage. Freezing temperatures were recorded from the northern part of the state well down into the Everglades, Jacksonville recording a minimum of 25. Miami felt a 24 for a low.

Pierce-Arrow
SALES CORPORATION
Chicago

January 13, 1928.

The Chicago Tribune,
435 N. Michigan Ave.,
Chicago, Ill.

Gentlemen:

We believe that our increasing Used Car business is largely due to the Classified Ads which we have been running in The Tribune. Approximately 85% of our used car advertising is placed in your paper with most satisfactory results.

Yours very truly,
PIERCE-ARROW SALES CORPORATION.

L. P. Keffly
Manager Used Car Division.

Successful Used Car Selling Depends on This

SUCCESS in the used car business today rewards the dealer or individual who reaches the greatest number of buyers most quickly with his promotional methods.

Every day The Tribune reaches 793,352 prospects in the Chicago Territory. On Sundays it reaches 1,175,240 people.

Automobile owners and dealers who make use of this great medium reach 83% of the potential automobile owners in Chicago and suburbs.

The Pierce-Arrow Sales Corporation realizes this, and accordingly they concentrate 85 per cent of their used car advertising in The Tribune Want Ad Section. Their judgment is vindicated by the superlatively satisfactory results it has produced for them . . . it has enabled them to sell used cars as quickly as they can recondition them, at a fair margin of profit.

Suppose Fires Were Treated As Are Minor Ills

In the event that a fire were to occur within your home or your shop, would you hesitate to call the fire department, trusting that its experts will not inflict damage?

Certainly your health, or that of your family, is worthy of protection equal to that which you give your physical property, yet many people who look upon fire as a thing to be suppressed at any cost view illness as something worthy of the doctor's attention only when sufficiently advanced as to be obviously dangerous or unendurable.

Learn to get your physician's help promptly when illness threatens.

Bring us your prescriptions. Our staff of prescriptions specialists are experts in this specialized work and it is a matter of pride with us that for 75 years our work and medicine have met with the highest approval of Chicago's medical men.

ESTABLISHED 1852

MOSCOW PHONE SERVICE ONE OF BEST IN EUROPE

City Starting to Provide Automatic System.

BY HENRY WALES.

(Chicago Tribune Press Service.)
MOSCOW, Feb. 19.—Russia, or at least Moscow, is rapidly providing telephone facilities that no other European city, even London, can touch. Public booths are available in public places, at street corners, in parks, in railway stations, and elsewhere. They are the latest machine type, and dial instruments are already being installed to make the system eventually automatic.

The phone system works rapidly, much better than in France or Italy—about as good as in Germany and England, and almost as well as in Spain, where an American company has taken over the operation of the telephone from the government.

It costs 10 rubles (\$20) for the phone and the installation of the instrument. Rental and service for unlimited calls is 1 ruble (\$2) a month. Already long distance communication has been established as far as Warsaw and other points in Poland, and by summer the last of the copper wire lines will have been installed to make through conversations with Berlin possible. From Berlin one may already talk to London and by the trans-Atlantic service to the United States, so that it is expected within a few years a person in America can ring up Moscow.

The public booths have huge tin telephone on their roofs to show what they are.

Good Motorbus Service.

A good motorbus service has been established here, using vehicles purchased from England when the London motor adopted the underframe type of bus, and from Germany, although now the government is manufacturing its own busses. They tear through the streets at a great rate and run on pneumatic tires instead of the solid rubber bands used in most other such heavy vehicles. The pneumatic tires give a better grip on snow and ice, in addition to making riding easier.

Moscow is crisscrossed with an elaborate street car system, which operates until 2:30 a. m., an hour later than the trams circulate in Paris. The fare is 4 cents, for one section.

A few taxicabs are in operation, but they may be found only at railway stations and in the heart of the city, around the Opera house and the two or three larger hotels patronized by tourists. They have meters, but usually refuse to run on them, demanding a flat fare, never less than 12. Also there are larger rented cars, which usually break down two or three times in the course of the journey. The Russian chauffeur never rises late, but must always have his passport, which is helpful when it comes changing tires or shifting

wheels. Closed cars charge more than open tourist models, even though the latter put on their storm curtains to keep out the cold.

Use Sleighs in Winter.

The usual winter conveyances are the sleighs. They stand about at corners waiting for fares like taxis and cabs in other cities. With the first fall of snow in the autumn the sleighs put away their wheel cabs and drag out the sleighs and will not go back to the cars until spring, even if there isn't a speck of snow, as occasionally happens during an extremely mild winter. The snow and ice on some of the principal streets may be worn off, causing the sleighs to scrape and scuttle over it, occasionally getting stuck. Then the driver calls to passersby to shove the sleigh along. And so do.

All hauling is done on big sleds, and they always get stuck going under archways from the street to the interior courts inside all buildings, where, generally, they are loaded and

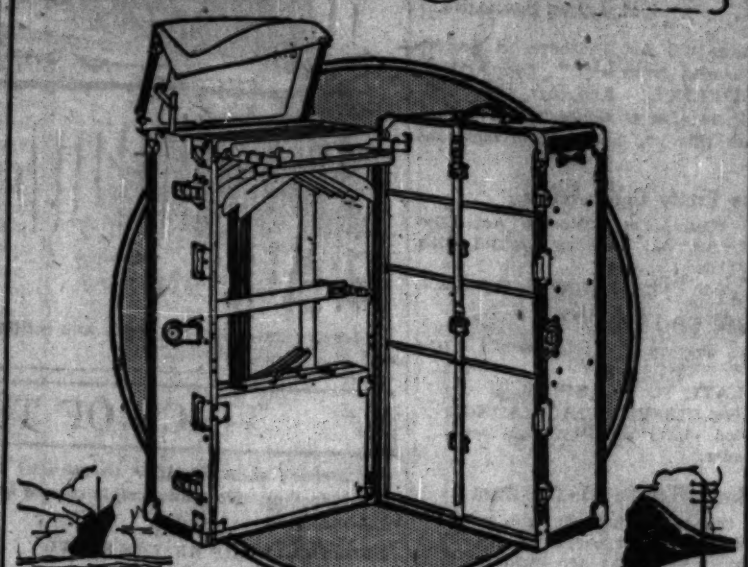

unloaded. Protected by the house, there is never any snow or ice in these arches.

Drive Hard Bargains.

The sleighs are pretty hard to drive bargains and invariably demand two or three times the regular fare, but if one insists and finally comes to a price the driver will complain at being paid what has been agreed on. It is only when one fails to make a deal in advance then hands over a ruble at the destination that the sleigher begins to roar.

Generally at night one walks half way to his appointment or home with an sleigher cruising alongside him haggling away on a price. The driver, whip up their steeds and turn away and gallop down the street half a block, then suddenly swerve round and tear back to see if the prospective fare has changed his mind and become more generous. After a lot of this the driver finally says, "Get in" and drives off.

LEADERS ATTEND RITES IN OTTAWA FOR REP. BROWNE

Legislator's Body Will Be Cremated Here.

(Picture on next page.)

Ottawa, Ill., Feb. 19.—Many leading citizens of Illinois attended the funeral of State Representative Lee O'Neil Browne. Services were held in the Ottawa High school auditorium and 1,000 persons jammed the building or waited outside during the ceremonies. Mr. Browne, who was 52 years old, was drowned in the Fox river Thursday when he slipped from a stone embankment at the rear of his home.

Chicago Leaders Attend.

Among those who attended the funeral services were George Brennan, Democratic leader; Anton J. Cernak, president of the Cook county board of commissioners; State Senator John Dillay, State Representatives Michael J. Igoe and Thomas Curran, and Ald. John Bowler of Chicago. There were at least twenty members of the legislature at the service. Gov. Len Small was not present, but his personal attorney, Wessley W. Schroeder, was there. The body was taken from Mr. Browne's home, a mansion on the east side of Ottawa, to the school auditorium, where Charles C. Craig, former justice of the Illinois Supreme court, pronounced the funeral oration. The body will be taken to Chicago tomorrow for cremation.

Guardians Form Escort.

Circuit Judge Joe A. Davis, Edgar Edwards, and Frank Hayes formed an escort for the carriage from the home. Mrs. Nellie Flordan Browne, the widow, and an adopted daughter, Anne, 11 years old, accompanied the body. The cortege was escorted by the La Salle county provided an escort of honor. "Mr. Browne was a friend of Illinois," said Justice Craig in his oration. "He takes his place in the state hall of fame."

Brief rites were performed by the Humboldt I. O. O. F. of the Masonic order of which Mr. Browne was a member. Then the body lay in state for several hours while a crowd filed past the casket.

FALLS ON STAIRS, KILLS. John J. Starnes, 4001 S. Wabash, was killed by a fall from a second floor landing at the rear of his home. He was on the stairs and had a few moments' rest. Starnes was a well-known local figure.

40 IDENTIFIED BY VICTIMS IN POLICE SHOWUP

Forty identifications, which will result in the clearing of more than eighty recent crimes, resulted yesterday when 400 suspects were viewed by robbery victims at the police showup at the Des Plaines street station. Deputy Commissioner O'Connor announced.

Among the prisoners were John Johns, his wife, and his brother, Leonard; their father, James Johns, and William Goodman. The five were arrested following a pistol battle with police outside the Johns apartment at 4137 North Kimball avenue on Friday. Victims of a drug store holdup pointed out the five, and in addition, Capt. Joseph Goldberg said, eight other charges were lodged against them and against Joseph Tomanek, who was wounded by police during the battle.

MOTOR CHANGES USE OF INFANTRY IN COMBAT FIELD

Mechanization of Army Units Made Necessary.

Washington, D. C., Feb. 19.—(Special.)—Radical changes in the organization and employment of the infantry and other combat arms of the American army are in prospect as the result of extensive war department studies of the value of tanks, armored cars, cross country vehicles and other mechanical arms on the battlefield.

After six months of investigation the general staff of the war department has reported to Secretary of War Davis that the most serious consideration should be given to the possibility of greatly increasing the striking power, mobility and effectiveness of the army by the mechanization of certain units of the nation's present military force.

The study discloses that the general staff now leans toward the building up of a separate experimental motorized and mechanized force of special weapons which would be employed as a striking force of great speed and power in conjunction with the infantry, artillery and other arms. Such a motorized force, if developed, would march and fight on wheels.

Tactics at Training Point. High officials believe that military science and tactics have been brought to a new turning point and that if the army is to be brought up to date, experiments with mechanized forces and new weapons must be carried out on large enough scale to disclose how mechanized units can be best employed and how they can best cooperate with the rest of the army in fulfilling its mission of winning wars.

New tests with a completely mechanized force as large as a brigade will be held this summer for the purpose of testing out the use of mechanized units. By the utilization of the tank, the cross country car, motorized machine gun companies, automotive and motor driven artillery and cross-country transport for personnel, it is believed a motorized force can be developed which will prove of great value in restoring mobility with high striking power to the battle field.

Infantry's Auxiliary. How such a force would be utilized the war department has not divulged, but it is significant that it would be employed as an auxiliary arm for the doughboys and other components of the army. Infantry, artillery and cavalry units would be employed, but the introduction of the highly mobile and powerful striking force is expected to change the tactics of their use and make mobile warfare possible.

The sensational changes of the motor industry in the last few years and the invasion of the army by improved weapons by the war department for the introduction of mechanized units to the employment of tanks and mechanical arms in the future.

American's common-sense position in the automotive field also approved the army high command in its search for the best and quickest way to utilize this development in a military way.

The studies thus far made have not convinced the general staff or the secretary of war that all elements of the

army should be placed on wheels. Neither have they broken down the conception that the infantryman is still the backbone of the land forces. They have disclosed, however, officials say, that the element of movement, with its companionate principle of surprise may be restored to battlefield tactics by some degree of mechanization.

Mechanization Defined. Mechanization, as it is spoken of in the war department's conclusions, made public today, is defined as the application of mechanics to the combat soldier on the battle field with a view to increasing his mobility, his protection and his striking power.

"The basic theme of the study made by the general staff," it is stated, "is the question of how mobility with high striking power can be restored to the battle field. Tremendous strides have been made by science and invention in transportation and communication and mobility has become one of the outstanding developments in modern economic life. Each year people travel farther and get there quicker, through motorization."

"The two elements necessary to decision in land warfare have been fire superiority and movement. When ever either one had neared a point of impotency, a radical change has been made in methods and tactics to strengthen the weaker element. The world war, especially in France, found fire power so highly developed that the costliness of tactical movement made it prohibitive at times."

Sensational Advances Made. "The sensational advances of the automatic industry has opened the

subject of mobility to new studies by military leaders throughout the world. American military students study it to find a means whereby our military forces may use to best advantage the predominant position held by this country's commercial automotive industry."

"The basic principles of war are immutable, but these studies reveal the possibility of new methods of their application. The development of a mechanized force for employment in battle would utilize to some degree the principles of mass, economy of force, movement, surprise, security, simplicity and cooperation."

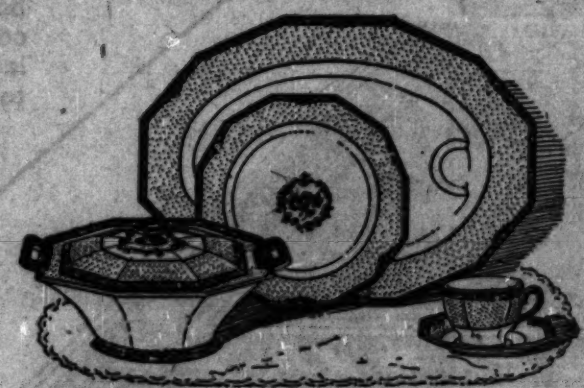

"This study suggests changes in methods and doctrines of training for employment of the mechanized force. For that reason, an intensive study of the development of a mechanized unit and experimental work in the operation of such a unit will entail a study of possible revisions of the tactics and technique of the separate branches. The study is limited to combat tactics and the utilization of a combat force on the battlefield as motorization of the supply branches presents little difficulty from the procurement point of view."

Lithuanians of Chicago Observe Independence Day

Several hundred Chicago Lithuanians last night celebrated the tenth anniversary of the independence of Lithuania at a banquet in the Stevens hotel. Anthony Kalvaitis, newly appointed consul to Chicago, and Povilas Zedekis, the retiring consul, were guests of honor.

POLICE FIRE ON CROWDS AS REDS RIOT IN WARSAW

WARSAW, Feb. 19.—Severe rioting has been in progress in Warsaw all day today. The trouble was caused by the Reds' election campaign. Twenty-seven persons were wounded in early encounters, and ten of these were sent to the hospital in critical condition.

The committee tried to hold an election meeting but the police forbade them to enter any hall, so the Reds adjourned to an open space where they held an open air meeting. As the crowd was dispersing, mounted and foot police suddenly appeared and opened fire. Thirty arrests were made. Indignation at the authorities for their action led to attempts at demonstrations in other parts of the city. Up to a late hour tonight there were clashes with the police, who are making use of their guns. More wounded are being taken to the hospitals, but so far no one has died.

Father, Stepmother, Held for Starving Two Children

Macomb, Ill., Feb. 19.—(Special.)—Henry Riden and wife will be arraigned in County court before Judge T. H. Miller tomorrow, charged with starving and neglecting to care for their two little girls, nine and six years old, who were sent to school hungry and without sufficient clothing. This is the second time they have been in court on a similar charge. The woman is a stepmother to the children.

Lindbergh Completes 42,000 miles of flying—with Mobiloil

We welcome, once more, our greatest and most beloved aviator.

Since he left San Diego last May, Col. Lindbergh has flown more than 42,000 miles in the "Spirit of St. Louis."

All this flying has been without mishap and without engine trouble.

For all this flying, Col. Lindbergh has used the same engine and the same lubricating oil—Mobiloil. The Mobiloil used by Lindbergh is not a special oil. It is Mobiloil "B", one of the grades sold by good dealers everywhere.

POSTAL DECLARED BAD ACCOUNT

Congressman Out "Free S"

Washington, D. C., Feb. 19.—Modern book-keeping is taking credit for the services it gives, worth of the \$23,000,000 due in 1927, a substantial department, according to Mr. Clyde Kelly, chief of the home postal committee.

Comments on the New's annual report, a \$23,000,000 deficit, asserted, from charges of "proof of inefficiency" to a postal office is "a bad account."

Denies Out. "There is not a 600 in postal operating Kelly. There is a deficit. The so-called looks so large, is due to free and partly given because of use of the great nation's organization in advance."

"The cost of the activity on a par with the department of agriculture to a deficit in them to do so would be in the case of the postal office."

An analysis of and a study of statistics.

MA

POSTAL DEFICIT DECLARED TO BE BAD ACCOUNTING

Congressman Kelly Points
Out "Free Services."

Washington, D. C., Feb. 19.—(Special.)—Modern bookkeeping methods showing the postoffice department to be in the red for the many "free" services it renders, would show, instead of a \$10,000,000 deficit reported for 1927, a substantial surplus for that year, according to Representative M. Kelly (Rep., Pa.), member of the house postoffice and post roads committee.

Comments on Postmaster General New's annual report, which indicated a \$10,000,000 deficit, ranged, Mr. Kelly asserted, from characterization of the deficit as "proof of extravagance and inefficiency" to a declaration that the postoffice is "a bankrupt business."

Denies Deficit.

"There is not a deficit of \$10,000,000 in postal operations," declared Mr. Kelly. "There is a large surplus instead. The so-called deficit, which looks so large, is due solely and wholly to free and partly free services which are given because congress has made use of the great nation-wide postal organization in advancing the common welfare."

"The cost of these policies is exactly on a par with expenditures for the department of commerce or the department of agriculture. No one points to a deficit in these departments, but to do so would be just as logical as in the case of the postoffice."

Presents Out Services.

An analysis of the deficit figures and a study of statistics furnished by

Postmaster General New show that the revenue which would be derived from the penalty mail sent by departments would be \$14,501,200, and the actual cost of handling such mail is placed at \$1,843,680. The franked mail sent out by members of congress and others at regular rates would bring in \$522,652, and the actual cost of handling it is estimated at \$520,691. To these items Mr. Kelly added \$9,000,000, the estimated cost of handling small county newspapers free anywhere within the country where there is no delivery, and the \$10,000,000 which is estimated to be lost annually by the postoffice department under the special flat rate of 14 cents a pound for religious and fraternal publications.

Nevada Girl to Fly Across Country in Mail Plane

New York, Feb. 19.—(AP.)—The daughter of a Nevada Superior court judge announced today that she would take off Tuesday for San Francisco in a transcontinental air mail plane. Miss Margaret Bartlett, 23, daughter of Judge George A. Bartlett of Reno, Nev., is scheduled to land in San Francisco at 4:30 p. m. Wednesday.

No Responsibility Fixed in Air Crash Which Killed 3

(Picture on back page.)
Macon, Ga., Feb. 19.—(AP.)—No responsibility for the three deaths which resulted from the crash of an airplane into the heart of Macon's business district yesterday was fixed to

day when a coroner's jury held an inquest over the body of C. M. Murphy, 54 year old local blacksmith, who was fatally injured when struck by the falling plane. Two aviators, Samuel L. Steele and Francis Ashcraft, were killed in the accident, which occurred when a bomb exploded prematurely in their plane at an altitude of 7,500 feet.

Quality
always in style

DRY ISSUE WILL NOT DOWN; BOTH PARTIES FACE IT

Forces Way Into Pre-Convention Campaigns.

Washington, D. C., Feb. 19.—(Special.)—Prohibition issues are forcing their way into the pre-convention presidential campaign in both parties, despite efforts of many of the leaders to keep them out.

A wet and dry angle is assuming prominence in the Ohio primary fight, notwithstanding the fact that both Secretary of Commerce Hoover and Senator Willis (Rep., O.), the opposing candidates, are considered dry.

Secretary Hoover is expected to make public this week a declaration of his position on prohibition in reply to the questionnaire submitted by Senator Borah (Rep., Idaho) to all presidential aspirants. It is assumed that Mr. Hoover will promise enforcement of the Volstead act, but that his declarations may not possess quite the ardor of the platform of Senator Willis, who is the recognized spokesman for the Anti-Saloon league in the senate.

Willis to Emphasize Issue.
Ohio wets who favor Hoover over Willis are credited with opposing the latter as a protest against Anti-Saloon league domination rather than because of any assurance that Hoover would favor a modification of the Volstead act.

Senator Willis intends to emphasize the prohibition issue, having already called attention to the fact that the Cleveland organization, headed by National Committeeman Maurice Maeschke, which switched from Willis to Hoover, is wet and that the Scripps-Herald newspapers have declared for Hoover as first choice and Al Smith as second choice.

Mr. Maeschke has made no secret of the fact that his support of Hoover was due, to a considerable extent, to the feeling that with Gov. Smith the probable Democratic nominee the secretary of commerce would give greater strength to the local Republican ticket in Cleveland than Willis.

Democrats Also Face Row.
That the Democrats will be unable to sidestep a row over prohibition in the Houston convention is indicated by reports that Gov. Smith will seek adoption of a plank in the platform favoring a modification of the Volstead act to permit the states to determine their own definition of intoxicating liquor. The recent speech of William G. McAdoo also has made it evident that the dry Democrats intend to oppose the nomination of Gov. Smith or any other wet.

Leading dry organizations of the country are making extensive preparations for the conference to be held here on Feb. 25, at which a demand is to be made for pronouncements in favor of national prohibition for unequalled enforcement of the Volstead act.

"The friends of prohibition law enforcement are making extensive preparations for the conference to be held here on Feb. 25, at which a demand is to be made for pronouncements in favor of national prohibition for unequalled enforcement of the Volstead act."

"The friends of prohibition law enforcement are making extensive preparations for the conference to be held here on Feb. 25, at which a demand is to be made for pronouncements in favor of national prohibition for unequalled enforcement of the Volstead act."

WILLIS RETURNS FROM WAR COUNCIL WITH NO DECISION MADE

Columbus, O., Feb. 18.—(C.)—Senator Frank B. Willis returned to Washington tonight after conferring two days with his presidential campaign managers on plans to combat Secretary Herbert Hoover in the fight for Ohio's delegation to the Kansas City convention.

"The senator departed without definite decision having been reached on the question of his entering the presidential primary."

No decision has been reported by Mr. Hoover's managers on the same question.

enforcement demand positive declarations in the party platform," said Leifon E. Wesley, executive secretary of the arrangements committee, today.

"Candidates who are either negative or silent will not have their support."

"Not only will prohibition enforcement planks be insisted upon, without equivocation, but the nomination of candidates who are dry in fact and whose names at the head of a national ticket will serve to give assurance to the people of sincerity in enforcement once the candidate is elected. Candidates meeting the requirements as to the degree of 'dryness' expected have been described as those 'thoroughly committed to this [prohibition enforcement] policy by their utterances, acts, and records.'"

COLLAPSED IN HOME; DIED.
A few hours after he collapsed in his home yesterday from a heart attack, Frank Collier, 42, of 1180 North 34th ave., Maywood, died at the West Lake hospital.

Senator Willis intends to emphasize the prohibition issue, having already called attention to the fact that the Cleveland organization, headed by National Committeeman Maurice Maeschke, which switched from Willis to Hoover, is wet and that the Scripps-Herald newspapers have declared for Hoover as first choice and Al Smith as second choice.

Mr. Maeschke has made no secret of the fact that his support of Hoover was due, to a considerable extent, to the feeling that with Gov. Smith the probable Democratic nominee the secretary of commerce would give greater strength to the local Republican ticket in Cleveland than Willis.

Democrats Also Face Row.
That the Democrats will be unable to sidestep a row over prohibition in the Houston convention is indicated by reports that Gov. Smith will seek adoption of a plank in the platform favoring a modification of the Volstead act to permit the states to determine their own definition of intoxicating liquor. The recent speech of William G. McAdoo also has made it evident that the dry Democrats intend to oppose the nomination of Gov. Smith or any other wet.

Leading dry organizations of the country are making extensive preparations for the conference to be held here on Feb. 25, at which a demand is to be made for pronouncements in favor of national prohibition for unequalled enforcement of the Volstead act.

"The friends of prohibition law enforcement are making extensive preparations for the conference to be held here on Feb. 25, at which a demand is to be made for pronouncements in favor of national prohibition for unequalled enforcement of the Volstead act."

Brazilian Official Here as Guest of Coffee Dealers

Dr. Alvaro da Silva, secretary to President Luis of Brazil and Brazilian delegate to the recent Pan-American conference at Havana, arrived in Chicago yesterday. In his party were his wife and Dr. J. C. Muniz, Brazilian

consul at Chicago. A group of Chicago coffee merchants were, at the Illinois Central station to meet them. They were H. A. Delafeld, Carl Zimmerman, Marcello Moraes, Arnold Frank, and Dickson Guarida. Dr. Alvaro, known as the Col. House of Brazil, will study business conditions in Chicago during his stay here as guest of the Chicago coffee roasters.

Inexpensive Travel

The Illinois Central electric suburban service is noted not only for its high quality but also for its low price. The average of all fares paid is less than 1½ cents a mile.

The highest-priced ticket sold costs \$10.08. Such a ticket is good for sixty trips between Randolph Street and Matteson, an aggregate distance of 1,694 miles. That is only about 150 miles short of a round trip between Chicago and New Orleans.

The high quality and low price of the suburban service have caused a 20 per cent increase in patronage since its electrification eighteen months ago.

Constructive criticism and suggestions are invited.

James
President, Illinois Central System.

It's time to RENEW your TRIBUNE INSURANCE

Your \$7,500.00 Tribune Insurance Policy will expire soon. Don't let it lapse! RENEW at once for another year for only \$1.00 with coupon on page 3.

DON'T FAIL to keep up your Tribune Accident Insurance! It is the biggest insurance bargain in America! It is more valuable now than ever. Specific indemnities increase 10% on renewal. The high value of your \$7,500.00 Policy is automatically increased 10% to \$8,250.00 the first year it is renewed; to \$9,000.00 on renewal the second year; to \$9,750.00 on renewal the third year, and so on until it reaches \$11,250.00.

Here is a cumulative value you cannot afford to lose! And this increased value costs you no more! Only \$1.00 a year with coupon on Page 3.

Every person needs protection. Millions are injured every year. And Tribune Insurance pays—often pays large sums of money for accidents not covered at all by the provisions of policies issued through other newspapers.

More than
\$850,000.00

in real money has been paid to Tribune Policyholders and Beneficiaries

This is an amazing record! It proves conclusively that Tribune Insurance is genuine protection and a great public service. Here are a few of the many cases of large sums paid to holders of these \$1.00 Policies or their beneficiaries.

SAMUEL B. HARRISON, Hinsdale, Illinois. Took out policy W. G. N. 30274 on March 31, 1925. Renewed policy twice, each time increasing its face value 10%. On November 18, 1927, he was killed in a taxicab accident enroute the Bell and Redwood La Grange. His mother, age 75, whose sole support he was, received the face amount of his policy plus the 10% yearly renewal increase. She was paid **\$9,000**.

WILLIAM E. COWEN, Janesville, Wisconsin. Holder of policy W. G. N. 32480. Killed March 30, 1925, as he was struck by train, just 21 days after taking out policy. On April 15, 1925, his widow, Annie M. Cowen, was paid **\$7,500**.

HARRY WICKLANDER, Highland, Illinois. Motorist. Holder of policy W. G. N. 32480. Killed November 30, 1927, in an accident on the C. & N. W. & M. R.R. at Highland, Ill. His wife, Eva Grace Wicklander, received the face amount of his policy plus 10% renewal increase. She was paid **\$9,000**.

ALBERT J. HOGAN, Chicago, Illinois. Machine operator. Holder of policy W. G. N. 32480. Lost an eye in taxicab accident on December 26th, 1925. Proof of permanent loss of sight was completed October 25th, 1926. On October 25th, 1926, he was paid **\$3,750**.

*Accidents such as this are not covered by the terms of policies issued by other newspapers. The insurance is usually restricted to fire paying passengers on rail.

Don't neglect this chance to renew your policy. The hazard of accidents is too great. Clip the coupon on page 3 and mail it with \$1.00 as directed to: "Tribune Insurance Department," Federal Life Insurance Company, 168 N. Michigan Ave., Chicago. It is not necessary to send in your policy. By payment of the renewal premium your present policy may be continued in force for another year and a receipt will be mailed to you. Send coupon now—before you forget.

GOVERNOR SAYS
PORTO RICO ONLY
WANTS AUTONOMY

Notes Given to Lindbergh
Disowned by Authors.

BY R. J. VAN DEUSEN.
SAN JUAN, Porto Rico, Feb. 19.—(AP)—Your cable inquiring as to the truth of the editorial in the Tribune regarding Porto Rican autonomy of the freedom message given Col. Charles A. Lindbergh for delivery to the United States government, and the allegation that the governor's office encourages belligerence on the part of the Barcelo party, Gov. Juan P. M. Barcelo directs me to say: "The charge that the governor's office encourages belligerence of the Barcelo party the governor most emphatically denies. In Porto Rico the governor does not interfere in local politics of any kind and does not encourage or

aid any party. It is his constant and earnest endeavor to secure for the people a clean and efficient administration of the affairs of the island. The charge that the governor of Porto Rico encourages belligerence is entirely untrue and is without any foundation whatever."
Not Demanding Independence.
Regarding the freedom message given Col. Lindbergh and the explanation of its apparent recall, the governor states that he regards the message as worded most unfortunately because it seemed to convey a meaning and significance not intended. The governor had no knowledge of the message until it was delivered.
When an explanation was asked, the persons who had prepared the message disclaimed any intention of demanding independence. They have for some time been asking for the right to elect their own governor as a next step in obtaining local self-government, and their somewhat extravagant language was really intended, so they declare, as a renewal of the demand for a greater degree of local self-government, and nothing more.
Want to Keep U. S. Flag.
As they said in their published explanatory statement, "We are not asking for international or absolute independence. We do not want to cover the flag of a common flag and a common citizenship. We want to preserve the American institutions and systems that we ourselves have adopted in our laws; we aspire to a perfect friendship and close brotherhood with our fellow citizens of the United States."

ARREST 2 YOUTHS,
BELIEVING THEY
KILLED DEPUTIES

Huntington, W. Va., Feb. 19.—(AP)—Two youths, giving their names as John Hankins, 20, and Russell Albermarle, 19, were arrested eight miles

east of Huntington today and held as suspects in connection with the slaying of two Indiana deputy sheriffs.
State police said the boys resembled John Burns and Samuel Baxter, charged with killing the deputies, who were transferring them to an Indiana reformatory.
The boys were driving an automobile

bearing an Indiana license. In the car was merchandise which officers alleged was taken from a hardware store in Millrose, Ind., where Albermarle said he resided. Hankins said his home was in Indianapolis.

In 1927 Chicago Lloyds
increased its business 22%
using The Tribune exclusively

ASSOCIATED UNDERWRITERS, INC.
CHICAGO LLOYDS
CHICAGO

January 30, 1928.

Mr. Leslie B. Schmitt, Manager
Financial Advertising Department
Chicago Daily Tribune
Chicago, Illinois

Dear Mr. Schmitt:

We have just completed analysis of our reports for 1927, and it brings to our attention some very interesting facts. Credit is due our Tribune advertising for some of the very satisfactory results accomplished.

You will probably be interested to learn that Chicago Lloyds was successful in increasing its premium income over 1926 for 1927 compared with 1926.

The Chicago Tribune was the only newspaper we used and we know from our records that our Tribune advertising was an important factor in building our business, for which reason we plan to continue it during 1928.

Our plan of advertising for automobile insurance as extensively as we did was experimental and directed to a particularly responsible class of people which naturally limited our potential market among automobile owners. Our Tribune advertising successfully reached this market to produce a very satisfactory volume.

Yours very truly,
J. M. Schmitt
ASSOCIATED UNDERWRITERS, INC.

Assets Over One Million Five Hundred Thousand Dollars

IN 1927 Chicago Lloyds decided to enlarge their advertising schedule. It was an experiment. To reach the greatest number of automobile owners to whom their automobile insurance advertising was addressed, they concentrated their newspaper appropriation in The Tribune.

The result—a business increase for Chicago Lloyds of more than 22% in 1927 over 1926! The experiment has become their advertising policy. They

will continue to concentrate in The Tribune in 1928.

Thus another advertiser happily acknowledges The Tribune's great part in building business for others. It is such experiences that have made The Tribune the greatest advertising medium on earth. Because of the response of any type of buyer in Chicago to Tribune advertising, The Tribune yearly outstrips the next Chicago newspaper by ten million lines of advertising. How would such powerful selling affect your business? Call a Tribune salesman.

SENATE COMMITTEE TO INVESTIGATE ACTS OF INDIAN LOBBYIST

Washington, D. C., Feb. 19.—[Special.]—One phase of the investigation into conditions in Indian reservations and the Indian bureau by the senate Indian affairs committee will concern activities of the army of white agitators, professional "uplifters," and self-appointed spokesmen working among the Indians.

The growing resentment among members of both house and senate at the tactics employed by lobbyists for the Indians, fanned up in the house last week when Representative Crampton (Rep., Mich.) attacked their practices.

Mr. Crampton charged that John Collier, executive secretary of the American Indian Defense Association, had circulated "scandalous" pamphlets and resorted to "misrepresentation and falsehoods" in order to defeat legislation proposed by that organization.

Members of the committee, rather than through the medium of occasionally harassed public lectures before mixed student audiences.

"Since coming to the University of Wisconsin I have done everything within my power to foster the tradition of freedom that is one of its chief glories; I have given formal approval of the use of the university platform for discussions that have flooded my desk with protests from political, religious and economic groups through the state. Trotsky, or his American equivalent, and J. P. Morgan would be equally welcome to the university platform to discuss bolshevism and big business. The doors are open alike to the advocates of public or private ownership of natural resources and public utilities, of pro-segregation or anti-segregation, of pro-religion or anti-religion, and so on through the whole round of political, social, economic, and religious issues that vex our time."

Military Training Speeches.

"I remind the student body that Kirby Page, noted opponent of military training in universities, spoke from our platform in the same week that he was denied the platform of another state university; and that, in adherence to the principle of free speech, the request by certain citizens of the state, that President Silas Evans of Ripon college be granted the use of the university platform to defend military training in universities was likewise granted without question, despite my personal belief that the promotion of military training by its friends is so often tied up with swash-buckling nationalism and gratuitous damning of all progressive thought as disloyalty, that its continuance in universities has still to be justified."

"But I am sure that neither to the student body nor to the citizens of the state is any argument necessary to indicate the present existence and the future guaranty of free speech on this campus. And no argument that I have yet seen convinces me that liberalism is inconsistent with at least a minimum sense of propriety."

To Avoid Sensation.

"To give advice in the matter, I do not undertake to pass moral judgment upon Mrs. Russell's theories; I do suggest that study and discussion of her and the institution of marriage should be taboo; I merely suggest that, in a co-educational institution, the study of certain aspects of the problems of sex may, with greater propriety, be pursued through the medium of scientific books and segregated."

MAIL IN 36 HOURS BY AIR FROM PERU TO N. Y. VISIONED

U. S. Concern Seeks Lima to Panama Route.

BY C. N. GRIFFIS.
[Chicago Tribune Press Service.]

LIMA, Peru, Feb. 19.—The proposal made by the Huff-Daland Dusters, Inc., of Monroe, La., for the establishment of an aerial mail and passenger service between Lima and New York is understood to be linked up with the proposed aerial line between New York and Panama.

The Lima-Panama section could comprise a distance of 1,600 miles and could be covered in a straight flying time of 15 hours, as the storminess character of this section of the west coast would make continuous day and night flying entirely feasible.

Application for an exclusive concession for this service was made in the name of the Huff-Daland company, which has been carrying on aerial cotton dusting operations in Peru for the last two years. This organization is a subsidiary of the Kopstone Airplane corporation, whose large three motored passenger planes have been operating in the West Indies.

Lima to New York in 24 Hours.

C. E. Woolman, vice president of the Huff-Daland company, said the project at present must be regarded as merely in the sphere of speculation and the plans would scarcely enter into operation before twelve months, but the law authorizing the concession will be up for approval by the present congress, which adjourns early in March.

It is understood President Augusto B. Leguia attaches the greatest importance to the measure, as the Lima-

Panama line, linked up with a Panama-New York line of equal efficiency, would give the Peruvian capital practically a 24 hour mail service to and from New York, while, linked with the existing 24 hour air mail service to Iquitos, it would give a fast mail and passenger service of 2 1/2 days between that remote Amazon rubber port and New York.

May Use 12 Passenger Planes.

The type of plane used in the Lima-Panama service will depend on the traffic demands and may range from 2 to 12 seater cabin machines. Keen interest is manifested in commercial aviation by the large business houses

and banks here, and the formation of a well financed company for transport within the country practically is assured.

The Huff-Daland project is said to have the support of United States diplomatic officials. The chief of the naval mission, Lieutenant Commander Harold Grow, who established the Iquitos line, was instrumental in introducing the Huff-Daland company and its organization in the Panama line.

COLLAPSE AT TEBATE, MEX. Mrs. Elise Brown, 36, of 3511 North Robey street, collapsed in the busy morning picture theater, Robey street and Lincoln avenue, last evening and died on route to the Montrose hospital.

CHICAGO, Feb. 19.—[Special.]—The Huff-Daland project is said to have the support of United States diplomatic officials. The chief of the naval mission, Lieutenant Commander Harold Grow, who established the Iquitos line, was instrumental in introducing the Huff-Daland company and its organization in the Panama line.

Agnes creates the flower-laden turban for Spring

and does it with bourraches of the moon-blue hues

... Agnes uses this little wild blossom in velvet for the floral theme of her Skull Turban this spring, shading it subtly from the new moon-blue to a berry purple. ... Thus she establishes the vogue for le chapeau feminin ...

THIS BOOK SHOWS THE WAY

TOO often families spend patient years in saving, and then, becoming impatient at their progress, lose all the money they have saved by one unwise speculation.

You need not become impatient with your progress, when you can know that financial independence awaits you at the end of fifteen well planned years. You need not worry about your future—you need not worry about the safety of your money or the income it will bring to you—if you know the secret of saving which is made clear in this book.

This plan works just as surely whether you are now earn-

ing \$1,000 or \$100,000 a year. It is so simple, anyone can understand it—so definite, anyone can follow it—so cer-

ing \$1,000 or \$100,000 a year. It is so simple, anyone can understand it—so definite, anyone can follow it—so certain, no one can fail.

Every member of every family old enough to spend or earn money, should read this book.

Get this new book, *"Behind the Scenes Where Bands are Made."* It shows the way to certainty in financial independence, and safety for the money with which this independence can be won.

NOTICE OF REDEMPTION
Southern Illinois
Railway and Power Co.

First Mortgage Gold Bonds
NOTICE IS HEREBY GIVEN to all holders of outstanding First Mortgage Gold Bonds of SOUTHERN ILLINOIS RAILWAY AND POWER CO., an Illinois corporation (hereinafter referred to as the "Company"), issued under and secured by the indenture of mortgage or deed of trust dated October 1, 1913, and the indenture supplementing the same, to wit:

Commonwealth Edison Company

mental thereto dated July 1, 1913, both executed by said Southern

mental thereto dated July 5, 1933, which was executed by said Southern Illinois Lumber and Lumbermen's Association for Dearborn Trust and Savings Bank, as Trustee (Continental National Bank and Trust Company of Chicago, Inc., as Trustee) under said mortgage and supplemental indenture, said bonds being dated October 4, 1932, and maturing on or before April 1, 1947, the proceeds of the proceeds of said mortgage and said bonds the Company has elected to redeem and pay on April 1, 1938, all said described bonds outstanding under said mortgage and supplemental indenture at the office of Continental National Bank, in the City of Chicago, Illinois, at par and accrued interest to said date, together with a premium of five per centum (5%) upon the principal thereof, and that all said bonds will be paid in full, par and accrued interest to said date, on said date at said office. Interest upon each of said bonds will cease from and after April 1, 1936. All said bonds will be subject to coupons maturing on or after said date, should any such date be presented and surrendered to said Trustee for redemption as provided in the indenture.

Any of the above bonds, with all unmaturing coupons attached, will be accepted and prepaid at said

Interest

The semi-annual interest on March 1, 1938, on the First Mortgage Gold Bonds of the Southern Illinois Lumbermen's Association at the Illinois Lumbermen's Company, in Chicago, Illinois, at the option of the Bondholder, will be paid at any Trust Company in the Borough of New York, City of New York, New York. Such interest will be paid in full and where provisions of the Federal Income Tax Law are in conflict against the Bondholder to be deducted from such interest, and deduction will be made gross of the Company.

George W. Williams, Treasurer

SETTLON, CUTLER AND COMPANY, INC.
To the Holders of the Seven Per Cent First Mortgage Gold Bonds, Series A-1, of the Southern Illinois Lumbermen's Association, Inc., dated October 4, 1932.

WHEREAS, the Board of Directors of the Southern Illinois Lumbermen's Association and Trust Fund of Incorporated, Chicago, Illinois, and the Southern Illinois Lumbermen's Company, Inc., Chicago, Illinois, have authorized the undersigned Company to issue the undersigned Company's First Mortgage Gold Bonds, Series A-1, of the Southern Illinois Lumbermen's Association, Inc., dated October 4, 1932, which may be taken out at par and accrued interest to said date, at Six Per Cent (6%), thereon and accu-

office of the Trustee at any time prior to the redemption date at 105

of the Trustee at any time prior to the redemption date at 105 and assumed interest on the date of redemption, less discount at the rate of four per centum per annum from the date of payment to April 1, 1948.

What Popular Song Does This Picture Represent?

Are you clever?
Can you name the
popular songs?
Here's a new
game! Open to
every man, wo-
man, boy and
girl. It costs you
nothing!

No. 1. The Chicago Tribune's "Game of SONG TITLES"

CLUE: The popular song represented above is one about something possessed by everybody—which is with everyone everywhere and which it is impossible to escape—except in the dark.

The Name of
This Song Is.....
(Write song title here)

My Name Is.....

Street Address.....

City..... State.....

Tear out this
coupon and name
the popular song
this picture repre-
sents!

A new song title car-
toon will appear every
day in the Chicago
Daily Tribune. Note
the rules.

The Chicago Tribune Will Pay THOUSANDS of DOLLARS in CASH FOR BEST ANSWERS! 617 Big Cash Prizes!

Do you know the names of the popular song hits of the day and the old, well known favorites—the melodies which are sung, whistled and hummed all over the nation? Note the illustration shown above. Can you tell the name of the song represented by this picture?

Here's a new and amusing game—open to every man, woman, boy and girl. The Chicago Tribune will pay Thousands of Dollars in Cash Prizes for the best answers. Simply name the songs pictured each day in the Chicago Daily Tribune. You do not have to know how to play them—just name them! Start with Picture No. 1 shown above. Picture No. 2 will appear in tomorrow's Chicago Daily Tribune.

Here Are the Simple Rules:

1. Every weekday for 40 consecutive days, (not including Sundays) the Chicago Daily Tribune will print a cartoon picture representing the name of a popular and well known song or old favorite melody. The public is invited to cut out these cartoons and name the songs the pictures represent.
2. The Chicago Tribune will pay \$5,000.00 in cash prizes to the persons sending in the nearest correctly named and nearest complete sets of Cartoons, as follows: 1st Prize, \$1,000.00; 2nd Prize, \$250.00; 3rd Prize, \$100.00; next 4 Prizes (\$25.00 each) \$100.00; next 100 Prizes (\$10.00 each) \$1,000.00; next 510 Prizes (\$5.00 each) \$2,550.00. A total of 617 Prizes, totaling \$5,000.00.

Song Title No. 1 Pictured Above Is Included in this List:

"Among My Souvenirs"
"My Blue Heaven"
"Me and My Shadow"
"Old Black Joe"
"Just Like a Butterfly"
"When Day Is Done"
"Let Me Call You Sweetheart"
"The World Is Waiting for the Sunrise"
"The Rosary"
"Star Spangled Banner"

3. This Game is open to everyone, everywhere—men, women, boys and girls—except employees of The Chicago Tribune and their families. It does not matter where you live.
4. You pay nothing. Just prove your skill. Accuracy will count. Neatness will count. Song Titles are to be submitted only in complete sets. Hold all cartoons until you have the complete set of 40. Then send them to "Song Titles," The Chicago Tribune, Post Office Box 1539, Chicago, Ill. All entries must be in by midnight 15 days after Picture No. 40 has been printed.
5. Each entry must be sent by first class mail—postage prepaid. Entries with insufficient postage will be returned by the Post Office Department. At the end of the contest we want you to tell us the name of your favorite song—the one you like best of all—and why. Contestants may send in as many sets of Song Titles as they wish, but no contestant will be entitled to more than one prize.
6. You need not purchase the Chicago Daily Tribune to compete. You may copy or trace the cartoon pictures from the originals and use the copies you have made. The Chicago Tribune may be examined at any of its Offices or at Public Libraries free of charge.
7. The judges will be a committee appointed by The Chicago Tribune. Their decision will be final. In case of ties a duplicate award will be paid to each tying contestant.

Start This Interesting Game TODAY!

Begin this new game TODAY! Clip the coupon printed above, read the clue beneath the picture, and fill in the name of the song this picture represents. With the clue to aid you it ought to be easy. Just try it. In addition, these songs will be broadcast by radio each evening over W-G-N. Tune in.

Look over the list of song titles printed at the left. The name of the song represented in Picture No. 1 appears in this list. Can you find it? Look then in tomorrow's Chicago Daily Tribune for Cartoon No. 2. A third picture will appear the next day and so on. Start with Picture No. 1 shown above, TODAY, and enjoy this interesting new game. It costs you nothing.

**Tune In
W-G-N**

As a further aid to you in deciding the name of the song pictured each day in the Chicago Daily Tribune, W-G-N will broadcast, every evening, the music of the song represented by the cartoon picture printed in the Chicago Daily Tribune the following day.

Tune in W-G-N tonight!

Picture No. 2 will be published in TOMORROW'S
Chicago Daily Tribune

REAL ESTATE LOAN

SECOND
MORTGAGE
LOANS

the cost of a mortgage is compared with the rate which prevailed before we entered the market two and a half years ago.

Think of it.

We are only charging modestly less than you had to pay in 1914.

Do you know of any other deduction which has been so widely acted as the rate on second mortgage loans?

These are the rates which are only on second mortgages—made the same through this company's low carrying interest and commission as:

2 1/2 % for 1 year.
3 1/2 % for 2 years.

Briton Drives Auto 206 Miles an Hour at Daytona Beach, Breaking Records—Macon, Ga., Air Crash Pictured

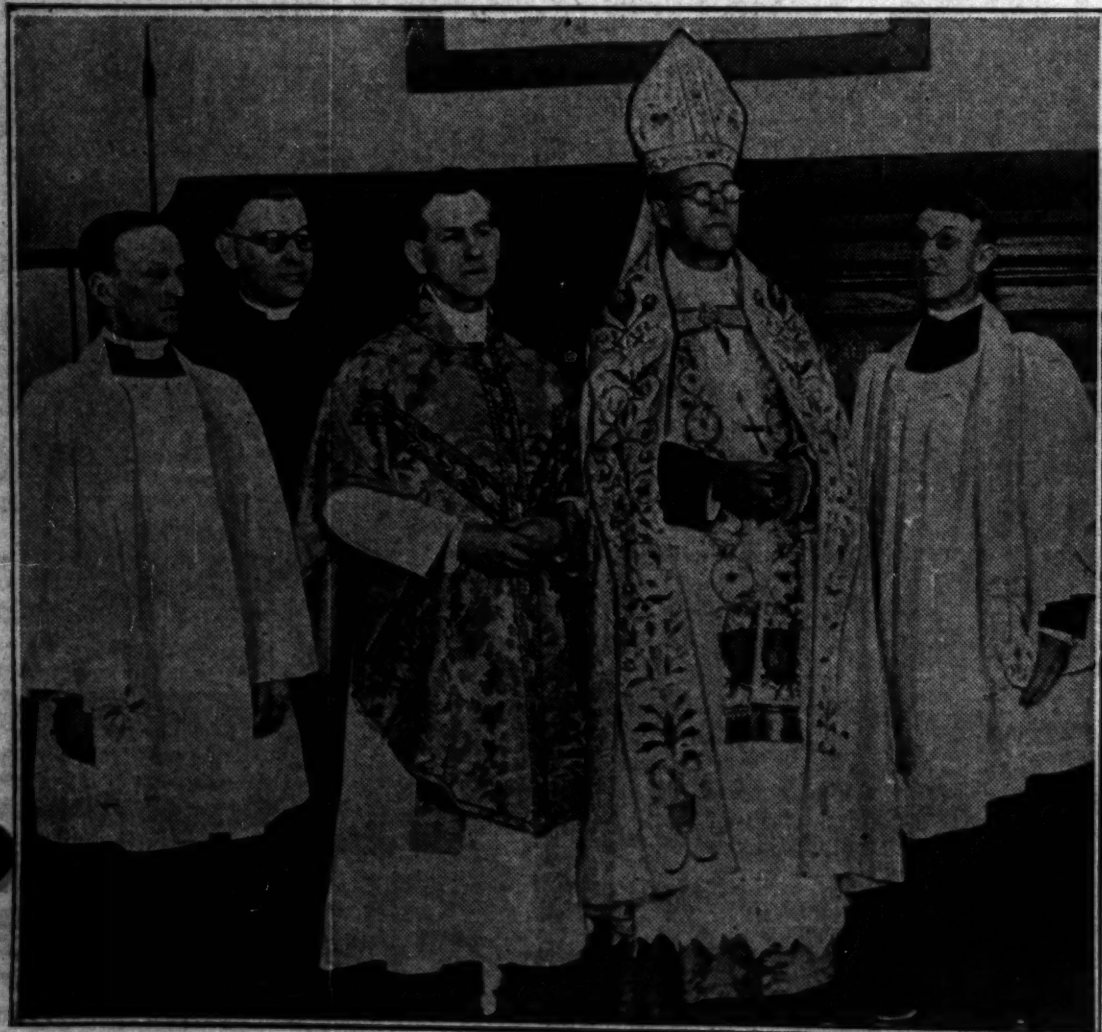

BRITISH RACE TRACK DRIVER BREAKS ALL WORLD SPEED RECORDS AT DAYTONA BEACH, FLA. Capt. Malcolm Campbell, who yesterday drove his Napier Bluebird special at an average of 206.95602 miles per hour, about to enter his car for trial run. The previous record, made at the same place by Maj. H. O. D. Seagraves, was 203.79 miles an hour. (Story on page 19.)

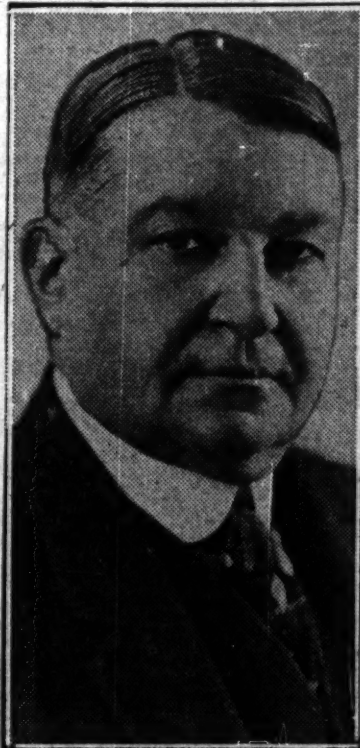

SPECIAL ENGINE ENABLES CAPT. CAMPBELL TO BREAK WORLD'S RECORD. Napier racing aero engine, similar to one installed in seaplane which won Schneider trophy at Venice in 1927, in place on the powerful chassis of Capt. Campbell's car. (Story on page 19.)

CROWD OF 3,500 ATTENDS FUNERAL SERVICES FOR LEE O'NEIL BROWNE. The La Salle County Bar association leading the hearse and the long line of automobiles down Main street to the Ottawa high school, where the services were held. (Story on page 11.)

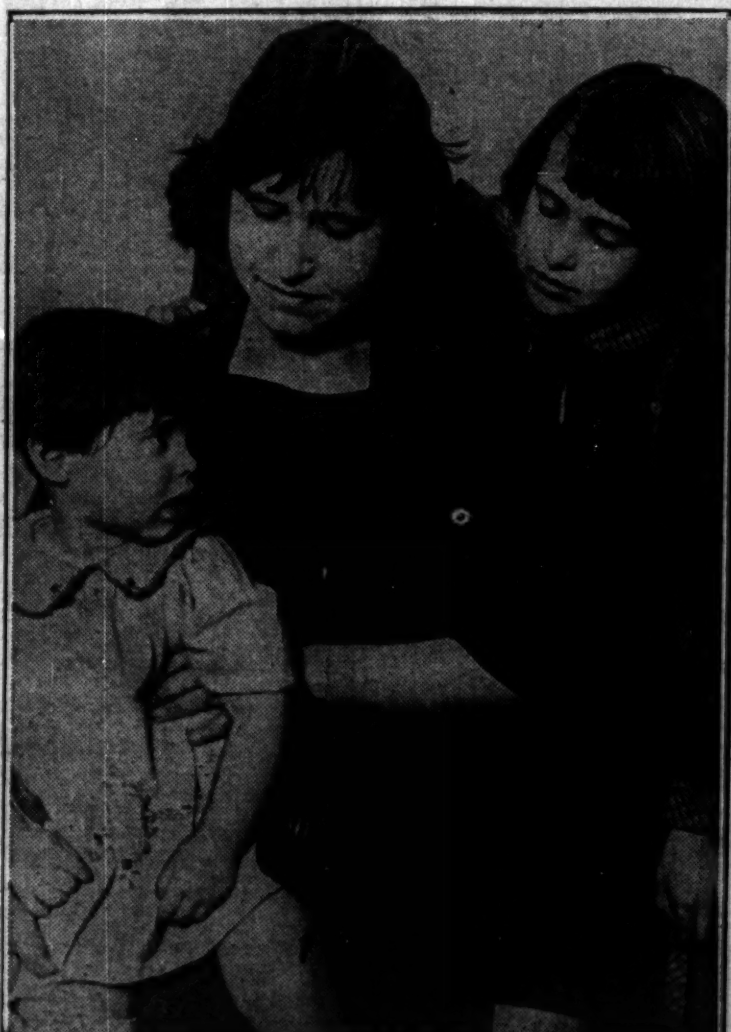

FORMER NORTHWEST MOUNTED POLICEMAN IS ORDAINED AS PRIEST. Left to right: The Rev. H. N. Hyde, the Rev. Charles T. Hall; the Rev. Mansel B. Green, who was ordained; Bishop Sheldon M. Griswold, who ordained him, and the Rev. E. J. Randall. (Story on page 5.)

PARTY LEADER DIES. Dennis J. Egan, Democratic chief, loses long fight for life. (Story on page 1.)

KILLS ROBBER. Sergt. John Gorman shoots Negro robbing place at 4801 Prairie avenue. (Story on page 3.)

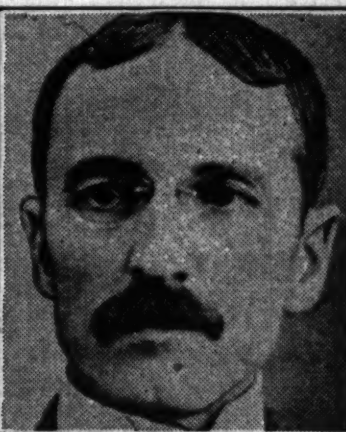

THREE RESCUED FROM APARTMENT HOUSE FIRE. Left to right: Margaret Kramer, 2; Mrs. Alice Kramer, and Lillian, 7, carried down ladders from 1859 East 71st street. (Story on page 7.)

BOMB KILLS PILOT AND SENDS AIRPLANE CRASHING DOWN INTO MAIN STREET OF MACON, GA. Wreck of airplane in which Buck Steele, veteran aviator and stunt performer, was killed by bomb while in air, causing plane to fall in Cherry street, Macon, killing Francis Ashcraft, passenger, and a pedestrian, and injuring two others. Many more were hurt when a sidewalk collapsed under the weight of a curious crowd. (Story on page 11.)

BOMBERS' TARGET. Mrs. Martha Francisco charges plot to blow up her restaurant. (Story on page 2.)

WILL TRY DRY. Judge William H. Hunt of California to preside in Miami cases. (Story on page 1.)

TWO CONFESS BOMBING PLOT TO DRIVE WOMAN OUT OF BUSINESS. Left to right: Sergt. Michael Hardiman; Felix Poslin, restaurant owner; Joseph Rocca and Joseph Lusker, who charged Poslin hired Lusker to bomb Mrs. Francisco's restaurant. (Story on page 2.)

POLICE INVESTIGATE STORY OF \$35,000 JEWELRY ROBBERY. Left to right: Shirley Goldberg, who was with Milton Gertsenblith of New York when he claims he was robbed in taxicab at 11th street and Michigan avenue, being questioned by Chief of Detectives Michael Grady and Deputy Commissioner William O'Connor. (Story on page 1.)

CITY TO EXPERIMENT WITH NEW FILTRATION PLANT TO PURIFY WATER. Building at 69th street and Oglesby avenue, adjacent to 68th street pumping station, where effort will be made to improve the Hyde Park water supply, now considered dangerous. (Story on page 7.)
